

Chapter 21 – Signs

Article I. In General

Section 1: Purpose and Findings

The City Council finds that signs provide an important medium through which persons may convey a variety of noncommercial and commercial messages. However, left completely unregulated, the number, size, design characteristics, and locations of signs in the City can become a threat to public safety as a traffic hazard and a detriment to property values and to the City's general public welfare, as well as create an aesthetic nuisance. The City further finds that signs have become excessive, and that many signs are distracting and dangerous to motorists and pedestrians, and substantially detract from the beauty and appearance of the City. The City finds that there is a substantial need directly related to the public health, safety and welfare to comprehensively address these concerns through the adoption of the following regulations.

The City further finds that there is a substantial difference between signs erected by public authority and signs erected by private citizens or businesses. Signs erected by public authority are virtually all erected for the purpose of maintaining the public safety either through direct control of traffic or through provision of such type signage as street signs which enable the traveling public to know where they are located and to find where they are going. As such, with the exception of signs identifying government buildings, virtually all government signs are erected purely for public safety purposes. Moreover, their use in the public right-of-way is necessary to ensure their visibility to the motoring public. The Mayor and council finds that public utility signs are frequently of the same nature as those signs erected by governmental entities in that they provide necessary information to safeguard the public from downed power lines and from street excavations. Even where signs serve a propriety purpose, such as identifying markings on utility poles, public utility signs are marked primarily for the purpose of benefiting the public generally through identification of locations where there may be temporary losses of power.

The City finds that some signage has a single targeted function and that identification of such signs by description is impossible without referring to its function. For instance, address numerals are used for the sole purpose of locating addresses, which is of benefit to those persons looking for those addresses and is essential to public safety personnel responding to emergencies. Signs at the entrances to subdivisions or major developments favor a similar purpose in enabling both the traveling public and emergency personnel to quickly locate entrances for the purpose of either visitation or responding to emergency calls. While such signage is referenced based upon the function it serves within the context of this Ordinance, the provisions of this Ordinance are unrelated to the content of speech provided and allow maximum expressive potential to sign owners.

The purpose and intent of the governing authority of the City of Dunwoody in enacting this Chapter are as follows:

- (1) To protect the health, safety and general welfare of the citizens of Dunwoody, and to implement the policies and objectives of a comprehensive development plan of the City through the enactment of a comprehensive set of regulations governing signs in the City of Dunwoody;
- (2) To regulate the erection and placement of signs within the City of Dunwoody in order to provide safe operating conditions for pedestrian and vehicular traffic without unnecessary and unsafe distractions to drivers or pedestrians;
- (3) To preserve the value of property on which signs are located and from which signs may be viewed;
- (4) To maintain an aesthetically attractive city in which signs are compatible with the use patterns of established zoning districts;
- (5) To maintain for the City's residents, workers and visitors a safe and aesthetically attractive environment and to advance the aesthetic interest of the City;
- (6) To establish comprehensive sign regulations that effectively balance legitimate business and development needs with a safe and aesthetically attractive environment for residents, workers, and visitors to the City;
- (7) To provide fair and reasonable opportunities for the identification of business which are located within the City of Dunwoody, and to provide for the identification of the availability of products, goods or services so as to promote the economic vitality of businesses that are located within the City;
- (8) To ensure the protection of free speech rights under the State and United States Constitutions within the City of Dunwoody;
- (9) To establish a permit system to allow specific types of signs in zoning districts consistent with the uses, intent and aesthetic characteristics of those districts;
- (10) To allow certain signs that are small, safe, unobtrusive on lots, subject to the substantive requirements of this Chapter but without a requirement for permits;
- (11) To provide for temporary signs in limited circumstances;
- (12) To place reasonable controls on nonconforming signs that are by definition contrary to the public health, safety and welfare while protecting the constitutional rights of the owners of said nonconforming signs; and

- (13) To provide for the maintenance of signs, and to provide for the enforcement of the provisions of this chapter.

Should it be determined that a sign permit was issued pursuant to an incomplete application or an application containing a false material statement, or that a permit has been erroneously issued in violation of this Chapter, the Director shall revoke the permit. Should the Director deny a permit, the reasons for the denial are to be stated in writing and hand delivered or mailed by certified mail, return receipt requested, to the address on the permit application on or before the twentieth business day after the Director's receipt of the application. Any application denied and later resubmitted shall be deemed to have been submitted on the date of resubmission, instead of the date of the original submission. "Due cause" is the violation of the provisions of this Chapter, other applicable ordinances, State or Federal law, or the submission of an incomplete application or an application containing false material statements.
- (b) *Appeal.* A rejection pursuant to this Section shall be appealable pursuant to the procedures for Zoning Appeals outlined in the City of Dunwoody Zoning Ordinance. However, notwithstanding the foregoing, a final decision will be rendered within ninety (90) days from date an appeal is filed. Section 5: Permit Expiration

A sign permit shall become null and void if the sign for which the permit was issued has not been completed and fully installed within six (6) months after the date of issuance. A sixty (60) day extension may be granted to the six (6) month limit to alleviate hardship upon proof of hardship beyond the ability of the owner to rectify. It shall be unlawful for any person to engage in the business of erecting or maintaining signs within the City unless and until such entity shall have obtained a City occupation tax certificate and a certificate of insurance from an insurance company authorized to do business in the state evidencing that the entity has in effect public liability and property damage insurance in the sum of twenty-five thousand dollars (\$25,000.00) for property damage for any one (1) claim, and public liability insurance in an amount not less than one hundred thousand dollars (\$100,000.00) for injuries, including accidental death to one (1) person.
