May 6, 2013

Honorable Mike Davis, Mayor,
Members of the City Council, and
Citizens of Dunwoody, Georgia

Ladies and Gentlemen

State law and local ordinances require that every general-purpose local government publish a complete set of audited financial statements each fiscal year. This report is published to fulfill that requirement for the year ended December 31, 2012. Management assumes full responsibility for the completeness and reliability of the information contained in this report, based on a comprehensive framework of internal controls established for this purpose. Because the cost of internal controls should not exceed anticipated benefits, the objective is to provide reasonable rather than absolute assurance that the financial statements are free of any material misstatements. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and reported in a manner designed to present fairly the financial position and results of operations of the City of Dunwoody, Georgia (the “City”).

This report has been prepared in accordance with State statutes set forth in an Act providing uniform standards for audits of municipalities and counties within the State of Georgia, approved March 28, 1968 (p. 464), and as amended by an Act approved April 21, 1968 (GA Laws 1997, p. 883). Mauldin and Jenkins, CPAs, have issued an unqualified (“clean”) opinion on the City of Dunwoody’s financial statements for the year ended December 31, 2012. The independent auditor’s report is located at the front of the financial section of this report.

Management’s discussion and analysis (MD&A) immediately follows the independent auditor’s report and provides a narrative introduction, overview, and analysis of the basic financial statements. The MD&A complements this letter of transmittal and should be read in conjunction with it.

Our History

Dunwoody is located in northern DeKalb County, west of Norcross and east of Sandy Springs; the city is bordered to the north by Dunwoody Club Drive and to the south by Interstate 285. Although not formally recognized as an incorporated city prior to 2008, the residents in this area have always identified themselves as living in “Dunwoody,” with a unique history separate from unincorporated DeKalb County. Dunwoody residents have a strong history of community involvement as seen in the establishment of the Dunwoody Homeowners Association in 1969 to the 1998 preservation of the Cheek-Spruill Farmhouse.

Cheek-Spruill House, 2009

The Dunwoody area was originally inhabited by a number of Cherokee tribes, all part of the Creek Indian Confederation. In 1822, the Creek Indians handed over a significant tract of land from which Georgia formed the counties: Monroe, Dooly, Houston, Fayette, and Henry. In 1823, the legislators took portions of Fayette and Henry to form DeKalb County, with Decatur being the County seat. In 1821, Elias Redfield was granted land lot #377, which would eventually become part of the estate of Stephen T. Spruill. This land also passed through the hands of C. A. Dunwoody, in 1862.

Charles Alexander Dunwoody (City of Dunwoody namesake, 1828-1905) was the son of John Dunwoody (originally spelled Dunwody). John Dunwoody was one of the founders of the mills in Roswell, Georgia. The Dunwoody family moved to Roswell in 1839 along with the family's shoe manufacturing business. In 1863, because of the ever-increasing need for mill products during the Civil War, a charter was secured by the State of Georgia to fund the building of a railroad. Both Charles Dunwoody and James King were members of the Roswell Guards and Roswell Battalion. (James King was the grandson of Roswell King, the namesake of Roswell, Georgia).

"Old Buck" Circ. 1918

Following the Civil War and the destruction wrought on Atlanta and its surrounding area, the Dunwoody family returned to Roswell. Major Charles Dunwoody decided to build his family's new home near the present day intersection of Chamblee-Dunwoody Road and Spalding Drive. Railroad construction resumed and the new, 9.8-mile line opened for business on September 1, 1881, running between the Air-Line Railroad and the Chattahoochee River. The Roswell railroad tied into the Air-Line at Roswell Junction, which is now Chamblee. The railroad carried produce from Dunwoody and fabric from the mills in Roswell. In 1903, the narrow gauge track was replaced with modern tracks and the engine that ran them soon gained the nicknames "The Dinky" and "Old Buck." Dunwoody thrived as a crossroads community and continued to grow even after the railroad stopped running in 1921.

In 1971 the Spruill family, who owned a large amount of land in the area, sold a portion of their property for the construction of Perimeter Mall and surrounding commercial development. In this area today, you can still find a testament to the founding fathers and land owners visible in a cemetery preserved behind commercial buildings, the Stephen Martin/ Spruill Cemetery at the corner of Hammond Drive and Ashford Dunwoody Road. Many other locations have been refurbished or marked as historical sites in order to preserve Dunwoody's historically rich legacy.

Dunwoody Present Day

Dunwoody entered into cityhood at midnight on December 1, 2008 following a community led movement to incorporate the City beginning with the formulation of the Citizens for Dunwoody in the fall of 2006. Currently, Dunwoody is the youngest city in the state of Georgia, voted into cityhood in December of 2008 by an overwhelming 81% majority. The City of Dunwoody is approximately 13.2 square miles with an estimated population of over 46,000 residents and an estimated daytime population of over 120,000. Some services are still provided by DeKalb County.

Profile of the Government

The City of Dunwoody operates under a council-manager form of government. The Dunwoody City Council is comprised of a mayor and six council members elected by the people on a nonpartisan ballot for four year terms.

Three members are elected by voters in each of the three separate districts they represent; the other three, including the mayor, are elected by city voters at large. The terms for council members from District Local 1, District Local 2 and District Local 3 expire in January 2014, while terms for the council members from District 1 At Large, District 2 At Large and District 3 At Large, including the mayor, expire in January 2016.

The Council serves as the legislative and policymaking body of the municipal government. They enact city ordinances and appropriate funds to conduct city business and provide policy direction to the administrative staff. The city manager works closely with the City Council to assist them in formulating policies and programs. Overseeing all city employees, the manager is responsible for the efficient ongoing operation of all city services as set forth by the City Council.

In conformity with generally accepted accounting principles, as set forth in Governmental Accounting Standards Board (GASB) Statements No. 61, The Financial Reporting Entity: Omnibus an amendment of GASB Statements No. 14 and No. 39, this report includes all funds of the primary government and any component units. For purposes of this report, the primary government includes all departments and agencies of the City which are not separate legal entities, including the Stormwater Department. The component units include those separate legal entities whose relationships with the primary government meet the criteria for inclusion defined in GASB Statements No. 61, specifically the Convention and Visitors Bureau of Dunwoody, Dunwoody Development Authority, and Urban Redevelopment Agency of the City of Dunwoody.

Local Economy

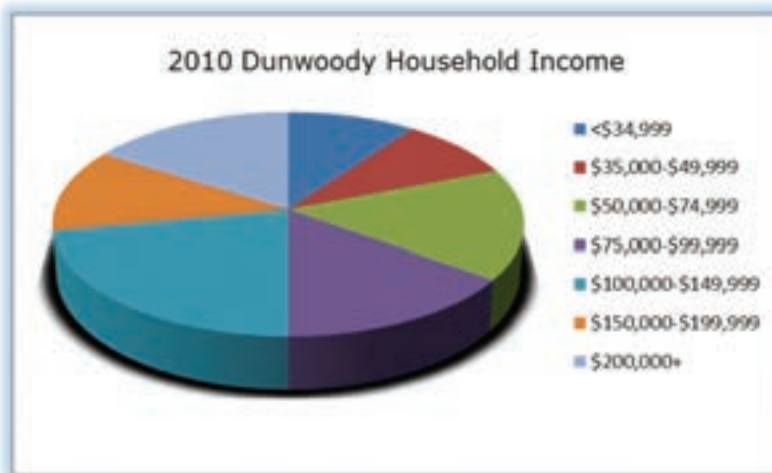

Dunwoody Population, Households, and Forecast: 2000-2030

	2000	2008	2013	2020	2025	2030
Population	38,699	43,322	46,267	49,465	51,323	53,019
Households	16,018	18,322	19,944	21,791	22,609	23,356
Avg. Household Sz.	2.38	2.30	2.31	2.27	2.27	2.27

Based on the 2010 US Census, in 2010 DeKalb County had a population of 691,893 people and stood as the third most populous county in the ARC region. DeKalb County has come to represent nearly a sixth of metropolitan Atlanta's total population, a significant figure for a single county considering the region consists of ten counties. Moreover, the County represents 7.1% of the entire population of Georgia. Dunwoody represents 6.7% of the DeKalb population.

The City of Dunwoody contains approximately 40 percent of the Perimeter Community Improvement Districts (PCID). The PCIDs' goal is to work continuously to develop efficient transportation services, with an emphasis on access, mobility, diversification and modernization. The Perimeter Center/ Perimeter Mall area is served by the Dunwoody train station on MARTA's north line, while the other two stations in the area are both on the Fulton County side. Perimeter Mall and the adjacent Perimeter Place shopping complex are the two largest dedicated retail areas housed within city limits. Also included as a primary retail area and considered a central location of Dunwoody is the Dunwoody Village. Within the limits there are approximately 2,300 licensed businesses.

The City of Dunwoody's median household income in 2010 was \$74,297, and the per capita income was \$44,066. DeKalb County (2010), in contrast has a median income of \$46,812 and a per capita income of \$38,094 with Fulton County a bit higher at a median income of \$52,831 (2010) and a per capita income of \$32,562 (2010). This illustrates that the North Fulton/North DeKalb cities have higher incomes than the counties in which they are contained. Georgia numbers are substantially lower at \$46,430 and \$23,383, respectively.

Dunwoody hosts several of the nation's largest companies and virtually every major industry except agriculture within the Perimeter Mall and surrounding commercial properties. Perimeter Mall is the South's second largest shopping mall with 18 million visitors per year. The City's commercial properties comprise over 40% of the total tax digest by property value, ensuring a strong economic environment for the government.

National and Local Economy

The national and local economy continued to struggle through 2012. The slow recovery period has been a challenge for many local governments. While Dunwoody is not immune to these challenges the City has fared better than most cities. Dunwoody boasts a diverse revenue stream and an efficiently managed service culture. As a result, Dunwoody has shown positive signs of stability. Although the City saw a decline in property taxes from \$6.3 million two years ago to \$5.6 million in 2012, the City remains in a strong position due in part to its relatively robust revenues including primarily franchise, licensing and permitting fees. Additionally, the City has experienced sizable new business and expansions as companies have built out or relocated headquarters in the City over the past year. The City has avoided increasing health care costs and pension liability accruals experienced by other municipalities by utilizing the Split Contract Service model that provides the City with highly trained staff for a fixed fee cost.

Long-term Financial Planning

Dunwoody is well positioned for future economic success. Property values held relatively steady compared to the overall County digest. Property values dropped 4.2% in Dunwoody in fiscal year 2012 while DeKalb County saw a much larger 8.7% drop in property values over the same time period. Dunwoody saw new business licenses issued and continued to attract several corporate headquarters. The City's diverse revenue base provides a variety of additional revenues to the millage rate of only 2.74 mills (capped at 3.04) from a variety of sources from groups of local businesses, residents and visitors to the area.

Dunwoody's incorporation and early development took place during a severe recession in the economy requiring the establishment of an effective and efficient structure. The City is better prepared than most but recognizes that the current economic environment creates additional pressure. The City continues to focus on keeping taxes low and making public investments in services and infrastructure. The City invested heavily in infrastructure and put in place several catalytic plans which will create a positive impact well into the future.

The City's policy is to obtain and then maintain a minimum General Fund balance reserve equal to 33% of operating expenditures and a maximum of 67%. Excess fund balances over reserve requirements will be used in subsequent periods for pay-as-you-go capital projects and one-time non-recurring expenditures. As part of the financial strategic plan, the government is committed to a consistent millage rate for property taxes, to facilitate the provision of city services. The City's operating millage rate is 2.74 mills.

Throughout the year, the Finance Department administered the approved financial policies within which the government's finances are maintained. These policies address fund balances, the use of one-time revenues,

issuance of debt, purchasing and procurement, cash and investment management, and accounting practices. In totality, these policies formulate the core criteria for which internal evaluations occur. The Finance Department also engaged an independent auditor to evaluate the City's internal control structure and recommend improvements to our structure.

City Council Budget Priorities

The budget adopted by the Mayor and City Council's established priorities including:

1. Maintain a safe environment for all residents, businesses and visitors
2. Promote responsible and balanced redevelopment
3. Actively pursue comprehensive infrastructure improvements
4. Create an atmosphere in which businesses thrive.

The legal level of budgetary control (i.e., the level at which expenditures may not legally exceed appropriations) is the department level, within the fund.

Fiscal Year 2012 was the fourth full year of service. Major items implemented during this fiscal year include:

Priority 1 - Maintain a safe environment for all residents, businesses and visitors

- Implemented Car-Fit Program for senior citizens
- Improved efficiency via deployment of Daily Report software
- Implemented and published Child Safety Check Program and Child Safety Seat Brochure
- Implemented Domestic Assault Response Team Program
- Developed and published an Identity Theft Information Brochure and I.D. Theft Resource Page
- Implemented the Operation Pill Drop Program
- Received award for the adoption of the Collision Avoidance Training Program

Priority 2 - Promote responsible and balanced redevelopment

- Developed an Urban Canopy Tree Inventory and Assessment
- Created a new zoning district to implement Project Renaissance
- Completed approximately 30% of the Draft Zoning Code Rewrite Text
- Completed rules and procedures for all planning and zoning processes and associated application amendments for more clarity
- Completed 8 multi-family apartment complex sweeps
- Completed GIS Web Browser architecture for public viewing of GIS information
- Received ARC Silver Green Communities Certification for environmental sustainability

Priority 3 - Actively pursue comprehensive infrastructure improvements

- Resurfaced over nine miles of Dunwoody's road network
- Completed the concept design for Tilly Mill at North Peachtree intersection improvement
- Implemented new work order management system
- Completed sidewalks on Happy Hollow Road and Valley View Road
- Completed design of sidewalks on various streets in Dunwoody's road network
- Completed thirteen stormwater pipe replacements
- Ridglock Court stormwater retrofit to reduce runoff and improve water quality
- Began construction for sidewalk and bicycle lanes on Mount Vernon Road west of Ashford Dunwoody Road
- Acquired additional parcels of land in the Georgetown/North Shallowford area
- The City's first Comprehensive Transportation Plan was recognized for the Outstanding Planning Process award by the Georgia Planning Association

Priority 4 - Create an atmosphere in which businesses thrive

- Reported 663,000 square feet of Class-A office space leased through new business development, company expansions and relocations
- Reported 2,503 jobs and over \$80 million capital investment through new business development, company expansions and relocations
- Maintained a collaborative relationship with the Code Enforcement Department to track down those business that have failed to pay their occupation taxes
- Maintained a collaborative relationship with the Chamber of Commerce to communicate any pertinent information to our Dunwoody businesses
- Collaborated with the Dunwoody Chamber of Commerce on the future formation of a small business incubator program

Awards and Acknowledgments

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City for its comprehensive annual financial report ended December 31, 2011. This program recognizes those governments that go beyond the minimum requirements of generally accepted accounting principles to prepare CAFR's that represent the spirit of transparency and full disclosure. To be awarded a Certificate of Achievement, the City must publish an easily readable and efficiently organized comprehensive annual report. The report must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA for consideration.

In addition, the City also received the GFOA's Distinguished Budget Presentation Award for the 2012 Budget document. This program recognizes those governments that prepare budget documents of the very highest quality that reflect both the guidelines established by the National Advisory Council on State and Local Budgeting and the GFOA's recommended practices on budgeting. To qualify for the Distinguished Budget Presentation Award, the City's budget document must be proficient as a policy document, financial plan, operations guide, and communications device. This award is valid for a period of one year only. We believe our current 2013 budget continues to conform to program requirements and have submitted it to GFOA to determine its eligibility for another award.

The City also received the GFOA Popular Annual Financial Reporting Award ("PAFR") for its annual citizens' report for the fiscal year ended December 31, 2011. This program recognizes those governments that produce high quality popular annual financial reports specifically designed to be readily accessible and easily understandable to the general public and other interested parties without a background in public finance. This was the 1st year the City has published this report and received this prestigious award. This award is valid for a period of one year only. We believe our current PAFR continues to conform to program requirements and we are submitting it to GFOA to determine its eligibility for another award.

The preparation of this report is possible because of the efficient and dedicated services of the entire staff of the Department of Finance and the cooperation of all City departments. I would like to express my appreciation to all who assisted and contributed to the preparation of this report. Credit also must be given to the Mayor, City Council, and City Manager for the unfailing support for maintaining the highest standards of professionalism in the oversight of the City's finances.

Respectfully Submitted,

Christopher Pike

INDEPENDENT AUDITOR'S REPORT

The Honorable Mayor and Members
of the City Council of the
City of Dunwoody, Georgia

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the **City of Dunwoody, Georgia**, as of and for the year ended December 31, 2012, and the related notes to the financial statements, which collectively comprise the City of Dunwoody, Georgia's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Dunwoody, Georgia as of December 31, 2012, and the respective changes in financial position, and, where applicable, cash flow thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 1, the City implemented Governmental Accounting Standards Board (GASB) Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources and Net Position*, as well as Statement No. 65, *Items Previously Reported as Assets and Liabilities*, as of January 1, 2011. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and General Fund – Schedule of Revenues, Expenditures and Changes in Fund Balances – Budget and Actual (GAAP Basis), as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Dunwoody, Georgia's basic financial statements. The combining and individual nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. The combining and individual nonmajor fund financial statements have been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated May 6, 2013, on our consideration of the City of Dunwoody, Georgia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Dunwoody, Georgia's internal control over financial reporting and compliance.

Mauldin & Jenkins, LLC

Atlanta, Georgia
May 6, 2013

MANAGEMENT'S DISCUSSION AND ANALYSIS

The following discussion and analysis of the City of Dunwoody, GA (the "City") provides an introduction to the basic financial statements for the fiscal period ended December 31, 2012. Management prepared this discussion that should be read in conjunction with the basic financial statements, footnotes, and supplementary information found in this report. This information taken collectively is designed to provide readers with an understanding of the City's finances.

CITY ACTIVITY HIGHLIGHTS

The City commenced the delivery of services on January 1, 2009 through an innovative set of partnerships with private sector firms who provide the City with Community Development, Public Works, and administrative services including Finance, IT and Communications. All of our critical staff was in place by December 1, 2008 providing cost efficient and effective service delivery with a specific focus on customer service.

Dunwoody experienced an exciting year with several highlights in the areas of infrastructure and parks, public safety, and community planning efforts. Additionally, the City significantly increased community outreach especially in areas of public safety and community development. Public Works completed two large sidewalk projects on Happy Hollow Road and Valley View Road in addition to resurfacing over 9 lane miles of Dunwoody's road network. Designs for sidewalk projects on various roads were completed for construction to begin in 2013. Public Works completed concept design for the Tilly Mill at North Peachtree intersection improvement. Implementation of a new work order management system will facilitate meeting response targets set during the budget process.

Parks began the design of Project Renaissance Parks and Trails in addition to beginning construction on the Brook Run Trail Phase I project. In 2012, the City was awarded a second \$100,000 in grant funding from the Department of Natural Resources for Phase II of the Trail.

The Dunwoody Police Department enjoyed an eventful

year implementing programs such as the Domestic Assault Response Team (D.A.R.T.), Operation Pill Drop, and Police Chaplain. The department worked with the DEA and other agencies to participate in aggressive targeting of "pill mills".

Community outreach in Dunwoody was at an all-time high in 2012. Several departments sought public input on various projects throughout the City including Project Renaissance Parks and Zoning Code Re-write. The Police Department educated the community on public safety items by implementing the Car-Fit Program for senior citizens and the Child Safety Seat Check Program.

OVERVIEW OF THE FINANCIAL STATEMENTS

The Management's Discussion and Analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves. The governmental activities of the City include general government, judicial, public safety, public works, recreation and community development.

Government-wide financial statements. *The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.*

The *statement of net position* presents information on all of the City's assets, liabilities, and deferred inflows, with the difference between the three reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The *statement of activities* presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the City include general government, judicial, public safety, public works, recreation and community development. The business-type activities of the City include stormwater management fund.

The government-wide financial statements include not only the City itself (known as the *primary government*), but also a legally separate convention and visitors bureau for which the City is financially accountable. Financial information for this *component unit* is reported separately from the financial information presented for the primary government itself.

The government-wide financial statements can be found on pages 18 and 19 of this report.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into governmental funds, proprietary funds, or fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the City's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the City's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains eight individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general and capital projects funds, which are considered to be major funds. Data for the other five governmental funds (motor vehicle excise tax fund, debt service fund, multiple grants fund, emergency 911 telephone service, and urban redevelopment agency fund) are combined into a single aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

The City adopts an annual appropriated budget for all its governmental funds.

The basic governmental fund financial statements can be found on pages 20 through 22 of this report.

Proprietary funds. The City maintains one proprietary fund. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The City uses an enterprise funds to

account for its stormwater fund. Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail.

The proprietary fund financial statements can be found on pages 23 through 25 of this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statement because the resources of those funds are not available to support the City's own programs. The City uses an Agency Fund for the collection and remittance of cash appearance bond related activity for municipal court. The accounting of fiduciary funds is much like that used for proprietary funds.

The fiduciary fund financial statement can be found on page 26 of this report.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 27 through 42 of this report.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information such as the budgetary comparison schedule for the general fund and hotel/motel tax fund as presented on a generally accepted accounting principal basis in this section. These schedules are intended to demonstrate the City's compliance with the legally adopted and amended budgets. Required supplementary information can be found on page 46 of this report.

The individual fund statements and schedules, referred to earlier, are presented immediately following the required supplementary information. Individual fund statements and schedules can be found on pages 47 through 57 of this report.

Total net position	\$ 78,102,903	\$ 71,825,391	\$ 3,625,262	\$ 3,285,176	\$ 81,728,165	\$ 75,110,567

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the City, assets exceeded liabilities by \$78,102,903.

The largest portion of the City's net position, \$54,940,675, reflects its net investment in capital assets (e.g., buildings, machinery and equipment roadways, sidewalks, culverts, equipment and signals); less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. The City reports restricted net position of \$3,495,877, which are restricted HOST

funds to be used on capital projects; restricted seized funds to be used for public safety, restricted grant funds to be used for designated grant programs, and restricted emergency 911 fees to be used for operation of the E911 center. The remaining portion of the City's net position represents net assets of \$19,666,351 that is available to meet the ongoing obligations of the government. The City has current assets of \$25,875,516. These assets include \$8,207,879 of cash and cash equivalents and \$5,716,329 of investments. The City's capital assets are \$61,200,055. Debt liabilities due in more than one year are \$5,591,559 with another \$950,483 due within a year for loans and leases executed for the initial acquisitions of automobiles and other public safety equipment for fire and police operations, land purchased in 2011, and debt refinanced and land purchased in 2012. At the end of the current fiscal period, the City reported positive balances in all net position categories.

CITY OF DUNWOODY - TOTAL PRIMARY GOVERNMENT

Governmental activities. The increase in net position is due to an increase in revenue of approximately \$972,149 while maintaining an efficient model of government to control expenses. The increase in revenues is due primarily to an increase in license and permit revenue, business occupation tax revenue, and insurance premium tax revenue of approximately \$658,276, \$289,254, and \$134,910, respectively. Franchise taxes were \$3,659,533, business occupation taxes were \$2,601,628, and insurance premium taxes were \$2,305,027.

Our most apparent and sizable expenses during the year were \$6,705,729 and \$4,096,589 for the operation of the Dunwoody Police Department and the Public Works Department, respectively. Overall, expenditures increased \$754,249 over 2011. This is largely attributable to the continued growth of the public safety system as well as an increase in community development efforts.

Business-type activities. The increase in net position of \$340,086 is primarily the result of an increase in operating revenues combined with a decrease in operating expenses.

Stormwater assessment fees (computed based on a property's impervious surface area) were \$1,804,012; representing virtually all of the revenues in the fund. The increase in the revenue was approximately 42% which is inline with the fee increase of approximately 44% for 2012 assessments. In 2012, public works completed a rate study of the stormwater utility and recommended a rate increase. Repairs to the system accounted for 77% of the operating expenses while depreciation on the assets accounted for 11% of the operating expenses. Repairs accelerated during 2012 as the assessment of the stormwater system was completed representing growth of 24% over 2011.

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the City's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the City's governmental funds reported combined ending fund balance of \$20,350,838 and increase in fund balance of \$3,766,245. Of this balance, \$11,370,979 is restricted or assigned for capital projects, \$1,062,531 is nonspendable for prepaids, \$446,248 is restricted or assigned for special purposes and \$7,471,080 is considered unassigned and can be used to meet the near term operating needs of the City.

General Fund. The general fund is the chief operating fund of the City. At the end of the current fiscal year the total fund balance was \$11,386,327 representing an unassigned fund balance of \$7,471,080, restricted HOST funds of \$3,291,488 for capital projects, restricted or assigned funds of \$413,009 for special purposes, and \$210,750 in nonspendable prepaids. Fund balance decreased by \$6,596 from 2011 primarily as a result of an increase in transfers out for debt service. As a measure of the liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 52.9% of total general fund expenditures, while total fund balance represents 80.6% of total general fund expenditures.

Capital Projects Fund. The capital projects fund was set up to account for capital projects managed by the City. During the current year, a total of \$8,697,706 was transferred into the capital projects fund from the general fund. After expenditures of \$5,720,788, the capital projects fund had an increase in fund balance of \$3,052,031.

GENERAL FUND BUDGETARY HIGHLIGHTS

The City's budget utilized a conservative approach based on the limited information available. Emphasis was given to ensuring financial stability and long-term stability while providing revenue enhancement, financial priorities and discipline.

The City employs an annual mid-year budget process in order to re-align appropriations made during the annual budget process with significant unexpected trends. This ensures adjustments facilitating appropriations to be in alignment with expected resources. Differences between the original budget and final amended budget are then resolved via official City Council action.

For fiscal 2012, the City's general fund had a favorable budget variance of \$2,270,594. There was a \$334,428 favorable budget variance for revenues as well as a \$2,139,339 favorable budget variance for expenditures. The City's actual activity was more favorable than budgeted for most line items due to a conservative budget approach. Contributing to the favorable revenue figure was unbudgeted increase in franchise fees, insurance taxes, and licenses and permits partially offset by unbudgeted decrease in property taxes and intergovernmental revenue. Also contributing to the favorable expense figures was \$575,000 for contingency that was not used in 2012.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital assets. The City's investment in capital assets for its governmental activities as of December 31, 2012, amounts to \$61,200,055 (net of accumulated depreciation). These assets primarily reflect infrastructure assets such as roadways, sidewalks, and signals; land; parks and culture facilities; and the capital investment for police vehicles and other capital related equipment. The City's investment in net capital assets for its business-type activities as of December 31, 2012 amounts to \$1,753,477. These assets reflect culverts and other storm water management assets. The decrease in business-type capital assets results from a change in estimate of the value of the storm water management system.

CITY OF DUNWOODY'S CAPITAL ASSETS (NET OF DEPRECIATION)

Additional information on the City's capital assets can be found in note 6 on pages 37 and 38 of this report.

Long-term debt. At the end of fiscal year 2012, the City had total debt outstanding of \$6,542,042 representing \$1,411,390 for police and administrative start-up equipment acquired in 2009 and \$5,130,652 for refinancing of debt issued in 2011 for the purchase of the PVC Pipe Farm property. All debt is backed by the full faith and credit of the City.

Additional information on the City's long-term debt can be found in note 7 on pages 38-39 of this report.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

All of these factors were considered in preparing the City's budget for the 2012 fiscal year.

- Sustainability of existing services – the City has deployed a philosophy of budgetary evaluation which reviews the needs of the City to the standard which realizes that services and associated costs should not be appropriated if they are not justified as long-term goals of the organization. This philosophy is solidified during the budget process, with a multi-year financial outlook that provides the conduit to evaluate government priorities, realign and diversify revenue structures, and provide the data for decision making for continued financial success.

- Cost of government – The operating millage rate cap of 3.04 mills is statutorily set and cannot be changed without a referendum. As part of the financial strategic plan, the government is committed to a consistent millage rate for property taxes, to facilitate the provision of city services.
- Infrastructure Improvements – The City provided substantial capital funding to continue the implementation of the 5-year capital paving plan to address a significant backlog of existing infrastructure deficiencies. Funding was also allocated for intersection improvements, parks, buildings, equipment, roadways, sidewalks, culverts, and signals.
- Economy Impact – The City's revenues and expenditures were implemented with a conservative approach to reflect the continued weakness of the economy.
- The City restricts the use of one-time revenues to capital and other one-time projects.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the City of Dunwoody's finances for all those with an interest in the City's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Department of Finance, City of Dunwoody, 41 Perimeter Center East, Suite 250, Dunwoody, GA 30346.

BASIC FINANCIAL STATEMENTS

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

FOR THE YEAR ENDED DECEMBER 31, 2012

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds	\$ 3,766,245
--	--------------

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation expense in the current period.	2,189,835
---	-----------

The effect of sales of capital assets.	(428,359)
--	-----------

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	(37,265)
--	----------

The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. This amount is the net effect of these differences in the treatment of long-term debt.	743,189
--	---------

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.	43,867
---	--------

Change in net position - governmental activities	<u>\$ 6,277,512</u>
--	---------------------

The accompanying notes are an integral part of these financial statements.

CITY OF DUNWOODY, GEORGIA

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2012

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the City of Dunwoody, Georgia (the "City") have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the City's accounting policies are described below.

A. Reporting Entity

The City, which was incorporated in 2008, operates under a charter adopted December 1, 2008, as a municipal corporation governed by an elected mayor and a six-member council. The government provides such services as police protection, cultural and recreational activities, community development and public works.

The accompanying financial statements present the City and its component unit, an entity for which the City is considered to be financially accountable. The discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the City.

Discretely Presented Component Units

The Dunwoody Convention and Visitors Bureau has been included as a discretely presented component unit in the accompanying financial statements. The Dunwoody Convention and Visitors Bureau ("Bureau") is fiscally dependent on the City as it does not have the power to levy taxes, determine its own aggregate budget without the approval of the City of Dunwoody, Georgia, or issue bonded debt and the City is required by contract to provide a majority of the operational revenues for the Bureau. Financial information with regard to the Bureau can be obtained from the Bureau's administrative offices at 41 Perimeter Center East, Dunwoody, GA 30346. Separate financial statements for the Dunwoody Convention and Visitors Bureau are not prepared.

Blended Component Unit

The Urban Redevelopment Agency (the "URA") has been included as a blended component unit in the accompanying financial statements. The City appoints its six member board. Although it is legally separate from the City, its sole purpose is to finance construction and acquisitions of the City. The debt and assets of the URA have been reported as a form of the City's debt and assets and all debt service activity is reported as debt service activity of the City. Separate financial statements for the URA are not prepared. The City reports the URA as a nonmajor debt service fund.

NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government and its component unit. The primary government is reported separately from its discretely presented component unit. The statement of net position includes non-current assets and non-current liabilities. In addition, the government-wide statement of activities reflects depreciation expense on the City's capital assets. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. However, any interfund services provided and used are not eliminated as this process would distort the direct costs and program revenues reported in the various functions.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to those who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

Property taxes, sales taxes, franchise taxes, intergovernmental grants, and investment income associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the City.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenue of the enterprise fund are charges to customers for services provided. Operating expenses for the enterprise fund include the cost of services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

In accordance with GASB Statement No. 33, "Accounting and Financial Reporting for Non-exchange Transactions," the corresponding assets (receivables) in non-exchange transactions are recognized in the period in which the underlying exchange occurs, when an enforceable legal claim has arisen, when all eligibility requirements have been met, or when resources are received, depending on the revenue source.

In accordance with GASB Statement No. 34, major individual governmental funds are reported as separate columns in the fund financial statements.

The City reports the following major governmental funds:

The **General Fund** is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The **Capital Projects Fund** is used to account for the capital expenditures made by the City.

The City reports the following proprietary fund:

The **Stormwater Fund** is used to account for the charges and expenses of maintaining the City's stormwater infrastructure.

Additionally, the City reports the following fund types:

The **Special Revenue Funds** are used to account for specific revenues, such as E911 revenues, hotel/motel tax revenues, motor vehicle excise tax revenues, and various grants, which are legally restricted to expenditures for particular purposes.

The **Debt Service Funds** are used to account for the resources accumulated and payments made for principal and interest on long term debt of the City.

The **Agency Fund** is used to account for the collection and disbursement of monies by the City's Municipal Court on behalf of other individuals or entities.

NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Budgets

Formal budgetary accounting is employed as a management control device for the general fund, special revenue funds, and capital projects funds of the City. The governmental funds budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America. Annual operating budgets are adopted for the General Fund, each Special Revenue Fund, and the Debt Service Funds each fiscal year through passage of an annual budget ordinance and amended as required. The City adopts project length budgets for the Capital Projects Fund. During the fiscal year ended December 31, 2012, the original budget was amended through supplemental appropriations. These changes are reflected in the budgetary comparison schedules.

All unencumbered budget appropriations lapse at the end of each year.

E. Cash, Cash Equivalents and Investments

Cash and cash equivalents includes amounts in demand deposits as well as short-term investments with a maturity date within three months of the date acquired by the City. The City pools cash resources of its various funds in order to facilitate the management of cash. Cash applicable to a particular fund is readily identifiable. The balance in the pooled cash accounts is available to meet current operating requirements. Investments of the City are reported at fair value.

F. Receivables

All receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible.

G. Interfund Receivables and Payables

Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year as well as all other outstanding balances between funds are reported as "due to/from other funds."

H. Prepaid Items

Payments made to vendors for services that will benefit periods beyond December 31, 2012, are recorded as prepaid items in both government-wide and fund financial statements. These items are accounted for using the consumption method.

I. Capital Assets

Capital assets, which include improvements, machinery and equipment, and infrastructure assets, are reported in the government-wide financial statements. Capital assets are defined by the City as assets with an initial, individual cost of more than \$10,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed.

NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

I. Capital Assets (Continued)

The City has reported all infrastructure that it currently owns and has a responsibility for maintaining. Donated capital assets are recorded at estimated fair market value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives is not capitalized.

Capital assets of the City are depreciated using the straight line method over the following useful lives:

Buildings	30 years
Improvements	15-40 years
Machinery & Equipment	3-20 years
Infrastructure	7-60 years

J. Restricted Assets

Tax revenues from the Homestead Option Sales Tax (HOST), police seizures, bonding escrows, and unspent proceeds from the City's notes payable are classified as restricted assets on the fund balance sheet and the HOST funds, police seizures, and bonding escrows are shown as restricted net position on the statement of net position because their use is restricted by Georgia law or applicable debt agreements.

K. Deferred Outflows / Inflows of Resources

The City implemented GASB Statements No. 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position and No. 65, Items Previously Reported as Assets and Liabilities, as of January 1, 2012. These new standards establish accounting and financial reporting for deferred outflows / inflows of resources and the concept of net position as the residual of all other elements presented in a statement of financial position.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The City has only one type of item, which arises only under a modified accrual basis of accounting that qualifies for reporting in this category. Accordingly, the item, unavailable revenue, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from property taxes, intergovernmental revenues, and charges for services and these amounts are deferred and will be recognized as an inflow of resources in the period in which the amounts become available.

NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

L. **Compensated Absences**

It is the City's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for non-vesting accumulated rights to receive sick pay benefits since the City does not have a policy to pay any amounts when employees separate from service with the City. All vacation pay is accrued when incurred in the government-wide financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

M. **Long-Term Obligations**

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net position.

In the fund financial statements, governmental fund types recognize the face amount of the debt issued as other financing sources and the repayment of debt as debt service expenditures.

N. **Fund Equity**

Fund equity at the governmental fund financial reporting level is classified as "fund balance." Fund equity for all other reporting is classified as "net position."

Fund Balance – Generally, fund balance represents the difference between the assets and liabilities under the current financial resources measurement focus of accounting. In the fund financial statements, governmental funds report fund balance classifications that comprise a hierarchy based primarily on the extent to which the City is bound to honor constraints on the specific purpose for which amounts in those funds can be spent.

Fund balances are classified as follows:

Nonspendable – Fund balances are reported as nonspendable when amounts cannot be spent because they are either (a) not in spendable form (i.e., items that are not expected to be converted to cash) or (b) legally or contractually required to be maintained intact.

Restricted – Fund balances are reported as restricted when there are limitations imposed on their use either through enabling legislation adopted by the City or through external restrictions imposed by creditors, grantors, laws or regulations of other governments.

Committed – Fund balances are reported as committed when they can be used only for specific purposes pursuant to constraints imposed through a resolution of the City Council. Only the City Council may modify or rescind the commitment.

NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

N. Fund Equity (Continued)

Assigned – Fund balances are reported as assigned when amounts are constrained by the City's intent to be used for specific purposes, but are neither restricted nor committed. The Fund Balance Policy, as adopted by the City Council, delegates the authority to the City's management to assign fund balance for particular purposes.

Unassigned – Fund balances are reported as unassigned as the residual amount when the balances do not meet any of the above criterion. The City reports positive unassigned fund balance only in the general fund.

The City's policy is to obtain and then maintain a minimum General Fund fund balance reserve equal to 33% of current expenditures.

Flow Assumptions – When both restricted and unrestricted amounts of fund balance are available for use for expenditures incurred, it is the City's policy to use restricted amounts first and then unrestricted amounts as they are needed. For unrestricted amounts of fund balance, it is the City's policy to use fund balance in the following order: (1) Committed, (2) Assigned, (3) Unassigned.

Net Position – Net position represents the difference between assets and liabilities in reporting which utilizes the economic resources measurement focus. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used (i.e., the amount that the City has spent) for the acquisition, construction or improvement of those assets. Net position is reported as restricted using the same definition as used for restricted fund balance as described in the section above. The remaining portion of net position is reported as unrestricted.

The City applies restricted resources first to fund outlays for which both restricted and unrestricted net position is available.

O. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTES TO FINANCIAL STATEMENTS

NOTE 2. RECONCILIATION OF GOVERNMENT-WIDE FINANCIAL STATEMENTS AND FUND FINANCIAL STATEMENTS

A. Explanation of Certain Differences Between the Governmental Fund Balance Sheet and the Government-wide Statement of Net Position

The governmental fund balance sheet includes a reconciliation between fund balance – total governmental funds and net position – governmental activities as reported in the government-wide statement of net position. One element of that reconciliation explains that “long-term liabilities are not due and payable in the current period and therefore are not reported in the funds.” The details of this \$6,808,213 difference are as follows:

Notes payable	\$ (1,411,390)
Bonds payable	(5,130,652)
Accrued interest payable	(45,681)
Compensated absences (i.e., vacation)	<u>(220,490)</u>
Net adjustment to reduce <i>fund balance - total governmental funds</i> to arrive at <i>net position - governmental activities</i>	<u><u>\$ (6,808,213)</u></u>

B. Explanation of Certain Differences Between the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-wide Statement of Activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between net change in fund balances – total governmental funds and change in net position of governmental activities as reported in the government-wide statement of activities. One element of that reconciliation explains that “Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.” The details of this \$2,189,835 difference are as follows:

Capital outlay	\$ 4,639,588
Depreciation expense	<u>(2,449,753)</u>
Net adjustment to increase <i>net change in fund balances - total governmental funds</i> to arrive at <i>change in net position - governmental activities</i>	<u><u>\$ 2,189,835</u></u>

Another element of that reconciliation explains that “The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position.” The details of this \$743,189 difference are as follows:

Proceeds for issuance of long-term debt	\$ (5,305,000)
Principal retirement of long-term debt	<u>6,048,189</u>
Net adjustment to increase <i>net change in fund balances - total governmental funds</i> to arrive at <i>change in net position - governmental activities</i>	<u><u>\$ 743,189</u></u>

NOTES TO FINANCIAL STATEMENTS

NOTE 2. RECONCILIATION OF GOVERNMENT-WIDE FINANCIAL STATEMENTS AND FUND FINANCIAL STATEMENTS (Continued)

B. Explanation of Certain Differences Between the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-wide Statement of Activities (Continued)

Another element of the reconciliation states that "some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds." The details of this \$43,867 difference are as follows:

Compensated absences	\$ (3,334)
Accrued interest	<u>47,201</u>
Net adjustment to increase <i>net change in fund balances - total governmental funds</i> to arrive at <i>change in net position - governmental activities</i>	<u>\$ 43,867</u>

NOTE 3. LEGAL COMPLIANCE – BUDGETS

The budget is officially adopted by the governing body prior to the beginning of its fiscal year, or a resolution authorizing the continuation of necessary and essential expenditures to operate the City will be adopted. The legal level of budgetary control (i.e., the level at which expenditures may not legally exceed appropriations) is the department level, within the fund.

Transfers of appropriations within a department budget or within a non-departmental expenditure category require only the approval of the Finance Director. Increases in appropriations in a departmental budget or in a non-departmental expenditure category, require approval of the governing body in the form of amendments to the budget ordinance.

As of December 31, 2012 the City of Dunwoody had the following investments:

Investment	Maturities	Fair Value
Certificates of deposit	less than 12 months	\$ 5,516,329
Certificates of deposit	1 - 5 years	<u>200,000</u>
Total		<u>\$ 5,716,329</u>

Interest Rate Risk: The City does not have a formal policy that addresses interest rate risk. At December 31, 2012 the above investments were subject to interest rate risk. Interest rate risk is the risk that a government may face should changes in interest rates affect the fair value of its investments.

NOTES TO FINANCIAL STATEMENTS

NOTE 4. DEPOSITS AND INVESTMENTS (Continued)

Credit Risk: The City does not have a formal policy that addresses credit risk aside from adherence to State statutes of investments. State statutes authorize the City to invest in the following: (1) obligations of the Georgia or any other state; (2) obligations of the United States; (3) obligations fully insured or guaranteed by the United States government or one of its agencies; (4) obligations of any corporation of the United States government; (5) prime bankers' acceptances; (6) the State of Georgia local government investment pool; (7) repurchase agreements; and (8) obligations of any other political subdivisions of the State of Georgia.

Custodial Credit Risk – Deposits: Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. State statutes require all deposits and investments (other than federal or state government instruments) to be collateralized by depository insurance, obligations of the U.S. government, or bonds of public authorities, counties, or municipalities. As of December 31, 2012, all of the City's bank balances were insured and collateralized as defined by state statutes and GASB.

NOTE 5. RECEIVABLES

Property taxes are levied on property values assessed as of January 1. The City contracts with DeKalb County to bill and collect City of Dunwoody property taxes. The taxes are levied by August 1 based on the assessed value of property as listed on the previous January 1 and are due on November 15 of each year, with a lien date of January 1 of the following year. Property taxes are recorded as receivables and unavailable revenues when assessed. Revenues are recognized when available.

Receivables at December 31, 2012, for the City's individual major funds and aggregate nonmajor funds, including any applicable allowances for uncollectible accounts are as follows:

	<u>General</u>	<u>Capital Projects</u>	<u>Nonmajor Governmental</u>	<u>Stormwater</u>
Receivables:				
Accounts	\$ 2,173	\$ 23,684	\$ 111,186	\$ 101,216
Taxes	5,744,040	-	176,040	-
Intergovernmental	-	-	8,965	-
Total receivables	<u>5,746,213</u>	<u>23,684</u>	<u>296,191</u>	<u>101,216</u>
Less allowance for uncollectibles	<u>(47,657)</u>	<u>-</u>	<u>-</u>	<u>(56,614)</u>
Net total receivable	<u><u>\$ 5,698,556</u></u>	<u><u>\$ 23,684</u></u>	<u><u>\$ 296,191</u></u>	<u><u>\$ 44,602</u></u>

NOTES TO FINANCIAL STATEMENTS

NOTE 6.

CAPITAL ASSETS

Capital asset activity for the City for the period ended December 31, 2012 is as follows:

	Beginning Balance	Increases	Decreases	Transfers	Ending Balance
Governmental activities:					
Capital assets, not being depreciated:					
Land	\$ 16,143,774	\$ 2,714,256	\$ (3,757,014)	\$ -	\$ 15,101,016
	257,461	1,761,376	-	(449,209)	1,569,628
	<u>16,401,235</u>	<u>4,475,632</u>	<u>(3,757,014)</u>	<u>(449,209)</u>	<u>16,670,644</u>
Capital assets, being depreciated:					
Buildings	728,244	-	-	-	728,244
Improvements	4,080,049	-	-	-	4,080,049
Machinery and equipment	4,118,448	163,956	(39,985)	45,000	4,287,419
Infrastructure	43,327,757	-	-	404,209	43,731,966
Total	<u>52,254,498</u>	<u>163,956</u>	<u>(39,985)</u>	<u>449,209</u>	<u>52,827,678</u>
Less accumulated depreciation for:					
Buildings	(102,266)	(87,835)	-	-	(190,101)
Improvements	(524,340)	(296,942)	-	-	(821,282)

NOTE 7. LONG-TERM DEBT

Notes Payable

In January 2009, the City entered into an agreement through a financial institution to borrow \$3,000,000 from the Georgia Municipal Association for the purchase of vehicles and equipment for the police department. Annual payments of \$653,053, including interest at a rate of 2.92% began in January 2010 and will continue through December 2014. The debt service requirements to maturity are as follows:

Fiscal year ending December 31,	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2013	\$ 616,523	\$ 36,530	\$ 653,053
2014	634,525	18,528	653,053
	<u>\$ 1,251,048</u>	<u>\$ 55,058</u>	<u>\$ 1,306,106</u>

During March 2009, the City entered into an agreement through a financial institution to borrow \$500,000 for the purchase of equipment for the equipping of City Hall. Semi-annual payments of \$55,562, including interest at a rate of 3.93% began in January 2010 and will continue through March 2014. The debt service requirements to maturity are as follows:

Fiscal year ending December 31,	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2013	\$ 105,851	\$ 5,272	\$ 111,123
2014	54,491	1,071	55,562
	<u>\$ 160,342</u>	<u>\$ 6,343</u>	<u>\$ 166,685</u>

Bonds Payable

During July 2012, the City Urban Redevelopment Agency issued \$1,785,000 of Series 2012A general obligation bonds. The 2012A bonds were issued to repay the principal balance outstanding on a note payable, which was being utilized to finance the purchase of 16.86 acres of land. Monthly payments of \$9,031, including interest at a rate of 2.00% began in September 2012 and will continue through August 2017.

NOTES TO FINANCIAL STATEMENTS

NOTE 7. LONG-TERM DEBT (Continued)

Fiscal year ending December 31,	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2013	\$ 73,824	\$ 34,542	\$ 108,366
2014	75,314	33,052	108,366
2015	76,834	31,532	108,366
2016	78,385	29,981	108,366
2017	1,456,468	19,110	1,475,578
	<u>\$ 1,760,825</u>	<u>\$ 148,217</u>	<u>\$ 1,909,042</u>

During July 2012, the City Urban Redevelopment Agency issued \$3,520,000 of Series 2012B general obligation bonds. The 2012B bonds were issued to repay the principal balance outstanding on a note payable, which was being utilized to finance the purchase of 16.86 acres of land. Monthly payments began September 1, 2012 and will continue through August 2019. The bonds are variable interest bonds, where the interest is calculated at the Daily LIBOR rate plus 135 base points on the basis of the actual days elapsed over a 360-day year. The interest rate may not exceed 12% per annum. At December 31, 2012 the interest rate was 1.56%.

Fiscal year ending December 31,	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2013	\$ 154,285	\$ 51,436	\$ 205,721
2014	156,708	49,014	205,722
2015	159,168	46,553	205,721
2016	161,667	44,054	205,721
2017	164,206	41,515	205,721
2018-2019	2,573,793	63,443	2,637,236
	<u>\$ 3,369,827</u>	<u>\$ 296,015</u>	<u>\$ 3,665,842</u>

Changes in Long-Term Liabilities

The following is a summary of long-term debt activity of the City for the period ended December 31, 2012:

	<u>Beginning Balance</u>	<u>Additions</u>	<u>Reductions</u>	<u>Ending Balance</u>	<u>Due Within One Year</u>
Governmental activities:					
Notes payable	\$ 7,285,231	\$ -	\$ (5,873,841)	\$ 1,411,390	\$ 722,374
Bonds payable	-	5,305,000	(174,348)	5,130,652	228,109
Compensated absences	217,156	235,301	(231,967)	220,490	210,954
Governmental activity Long-term liabilities	<u>\$ 7,502,387</u>	<u>\$ 5,540,301</u>	<u>\$ (6,280,156)</u>	<u>\$ 6,762,532</u>	<u>\$ 1,161,437</u>

For governmental activities, compensated absences are generally liquidated by the general fund.

NOTES TO FINANCIAL STATEMENTS

NOTE 8. INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS

The composition of interfund balances as of December 31, 2012 is as follows:

<u>Receivable Entity</u>	<u>Payable Entity</u>	<u>Amount</u>
General Fund	Non-major governmental funds	\$ 179,733
Capital Projects Fund	General Fund	1,274,438
		<u>\$ 1,454,171</u>

All interfund balances resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

Due to/from primary government and component units:

<u>Receivable Entity</u>	<u>Payable Entity</u>	<u>Amount</u>
Component unit - Convention and Visitors Bureau	Primary government - Non-major governmental funds	\$ 67,484

Interfund transfers:

<u>Transfers In</u>	<u>Transfers Out</u>	<u>Amount</u>
General Fund	Nonmajor governmental funds	\$ 1,208,315
Capital Projects Fund	General Fund	8,697,706
Nonmajor governmental funds	General Fund	2,066,562
Nonmajor governmental funds	Nonmajor governmental funds	266,696
		<u>\$ 12,239,279</u>

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and (2) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

NOTE 9. OPERATING LEASES

The government leases the office facilities under non-cancelable operating leases. The City accrues rent expense in an amount such that the total rent expense under the lease is recognized ratably over the lease term. Rent expense for this lease was \$403,711 for the fiscal period ended December 31, 2012.

The future minimum lease payments for this lease are as follows:

<u>Year Ending December 31,</u>	
2013	\$ 497,931
2014	509,249
2015	520,815
2016	532,630
2017	544,692
2018-2019	744,045
Total	<u>\$ 3,349,362</u>

NOTES TO FINANCIAL STATEMENTS

NOTE 10. COMMITMENTS AND CONTINGENT LIABILITIES

The government is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of management and legal counsel, the resolution of these matters will not have a material adverse effect on the financial condition of the City.

The City has entered several public/private contractual partnerships for outsourced services and operations. Through these contracts with private companies, an array of operational services are provided via outsourcing. These contracts are an operating contract for which the City is continually monitoring its outsourcing needs as compared to providing services in-house. Currently, these contracts are approximately \$3.7 million annually. The contracts were bid for four annual service periods and run through the year ending December 31, 2015.

For the fiscal year ended December 31, 2012, construction commitments on uncompleted contracts were \$626,934.

The City employed encumbrance accounting during the period; however, there were no encumbrances outstanding at December 31, 2012.

NOTE 11. DEFINED CONTRIBUTION PENSION PLAN

The City of Dunwoody offers two Retirement Plan options, both of which are a single employer defined contribution plan established and administered by Dunwoody for all full time employees. At December 31, 2012, there were 61 plan members. City Council has the authority to establish and amend the plan provisions as well as the contribution for the plan. The City contributes 6.2% and 10% of each employee's salary into the two plans. Employees are not required to contribute to the Plan. Employees are eligible on the first day of the month, following thirty days of employment and are fully vested after twelve months. For the fiscal period ending December 31, 2012, the City's contributions to the Plans were \$564,850.

NOTE 12. JOINT VENTURE

Under Georgia law, the City, in conjunction with other cities around the Metropolitan Atlanta Georgia area, is a member of the Atlanta Regional Commission (ARC) and is required to pay annual dues thereto, which DeKalb County has paid on behalf of the City of Dunwoody. Membership in ARC is required by the Official Code of Georgia Annotated (OCGA) Section 50-8-34, which provides for the organization structure of ARC. ARC Board membership includes the chief elected official of each county and municipality of the area. OCGA 50-8-39.1 provides that the member governments are liable for any debts or obligations of the ARC. Separate financial statements may be obtained from ARC, 40 Courtland Street NE, Atlanta, Georgia 30303.

NOTES TO FINANCIAL STATEMENTS

NOTE 13. HOTEL/MOTEL LODGING TAX

The City has levied a 5% lodging tax. The Official Code of Georgia Annotated 48-13-51 requires that all lodging taxes levied of 3% or more be expended or obligated contractually for the promotion of tourism, conventions, or trade shows. During the period ended December 31, 2012, the City received \$1,849,719 in hotel/motel taxes. Of this amount, \$739,888, or 40%, was used for the promotion of tourism, conventions, or trade shows.

NOTE 14. MOTOR VEHICLE EXCISE TAX

The City has levied an excise tax on the rental of motor vehicles. The Official Code of Georgia Annotated 48-13-93 requires that all motor vehicle excise taxes be expended or obligated contractually, in accordance with the City's ordinance, for the acquisition, construction, renovating, improving, maintenance and equipping of pedestrian walkways, installation of traffic lights, and street lights associated with public safety facilities or public improvements for sports and recreational facilities. During the period ended December 31, 2012, the City received \$98,438 in motor vehicle excise taxes. Of this amount, \$98,438, or 100%, was used for these purposes.

NOTE 15. RISK MANAGEMENT

The City is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City has joined together with other municipalities in the state as part of the Georgia Interlocal Risk Management Agency Property and Liability Insurance Fund, a public entity risk pool currently operating as common risk management and insurance programs for member local governments.

As part of this risk pool, the City is obligated to pay all contributions and assessments as prescribed by the pools, to cooperate with the pool's agents and attorneys, to follow loss reduction procedures established by the funds, and to report as promptly as possible, and in accordance with any coverage descriptions issued, all incidents which could result in the funds being required to pay any claim of loss. The City is also to allow the pool's agents and attorneys to represent the City in investigation, settlement discussions and all levels of litigation arising out of any claim made against the City within the scope of loss protection furnished by the funds.

The funds are to defend and protect the members of the funds against liability or loss as prescribed in the member government contract. The fund is to pay all cost taxed against members in any legal proceeding defended by the members, all interest accruing after entry of judgment, and all expenses incurred for investigation, negotiation or defense.

Settled claims have not exceeded the coverages in the last three years.

The City carries commercial insurance for other risks of losses. For insured programs, there have been no significant reductions in insurance coverage. Settlement amounts have not exceeded insurance coverage in the last three years.

STATISTICAL SECTION

Dunwoody*
* Smart people – Smart city

STATISTICAL SECTION

This part of the City of Dunwoody's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health.

Page

Financial Trends 61

These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.

Revenue Capacity 64

These schedules contain information to help the reader assess the City's most significant local revenue source, property tax.

Debt Capacity 69

These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.

Demographic and Economic Information 71

These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place.

Operating Information..... 73

These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs.

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial report. The City's first period of operation is the fiscal period ended 2009; therefore, data prior to 2009 is not available.

Source: Assessed value data used to estimate applicable percentages and debt outstanding obtained from DeKalb County's Finance Department.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the City. This process recognizes that, when considering the government's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.

(1) The percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of the County's taxable assessed value that is within the City's boundaries and dividing it by the County's total taxable assessed value.

DEMOGRAPHIC AND ECONOMIC STATISTICS

LAST FOUR FISCAL YEARS

Fiscal Period	Population (1)	Personal Income (amounts expressed in thousands) (1)	Per Capita Personal Income (1)	Median Age (1)	School Enrollment (2)	Unemployment Rate (1)
2009	43,322	\$ 2,437,036	\$ 56,254	38.4	5,798	10.1 %
2010	46,267	2,239,878	48,412	38.0	6,003	10.1
2011	46,267	2,038,802	44,066	35.7	11,425	5.9
2012	46,809	1,838,096	39,268	35.9	12,308	8.8
