MEMORANDUM

To: Mayor and City Council

From: Adam Fraley, Mauldin & Jenkins Audit Partner

Date: July 14, 2014

Subject: Presentation of the 2013 Annual Audit Report

ITEM DESCRIPTION

To present and discuss the 2013 Annual Audit Report

BACKGROUND

RECOMMENDED ACTION

For presentation and discussion only

The City of Dunwoody, Georgia

Annual Audit Agenda December 31, 2013

Presented by:

Annual Audit Agenda
December 31, 2013

PURPOSE OF ANNUAL AUDIT AGENDA

- ♦ Engagement Team and Firm Information.
- ♦ Overview of:
 - o Audit Opinion;
 - o Financial Statements, Footnotes and Supplementary Information;
 - o Compliance Reports;
- ◆ Required Communications under <u>Government Auditing Standards</u>.
- ◆ Accounting Recommendations and Related Matters.
- ♦ Answer Questions.

Annual Audit Agenda

MAULDIN & JENKINS – GOVERNMENTAL PRACTICE

General Information:

- Founded in 1920.
- Large regional firm serving the Southeastern United States.
- Offices located in Macon, Atlanta, Albany, Bradenton, Chattanooga and Birmingham with firm governmental leadership positioned in the Atlanta office.
- Approximately 280 personnel are employed at Mauldin & Jenkins.

Governmental Sector:

- Largest specific industry niche served by Firm representing 27% of Firm practice.
- Serve more governmental entities in Georgia than any other certified public accounting firm requiring over 65,000 hours of service on an annual basis.
- Approximately 80 professional staff persons with current governmental experience.
- Current auditor for over 250 total governments in the Southeast, including approximately:
 - ✓ 75 cities;
 - ✓ 30 counties:
 - ✓ 35 school systems (8 of the 10 largest in Georgia and 10 of the 30 largest in Georgia and Florida combined);
 - ✓ 15 state entities; and,
 - ✓ 95 special purpose entities (stand-alone business type entities, libraries, etc).
- Serves 67 governments receiving the GFOA's Certificate of Achievement for Excellence in Financial Reporting.
- Auditor of a substantial part of the State of Georgia including: approximately 25% of the State's general fund; 13 of the State of Georgia's component units; and 2 State of Alabama entities.

Engagement Team Leaders for City of Dunwoody, Georgia Include:

- Wade Sansbury Concurring Partner 18 years experience, 100% governmental
- James Bence Client Executive 11 years experience, 100% governmental
- Christopher McKellar Engagement Manager 9 years experience, 100% governmental

MAULDIN & JENKINS – ADDITIONAL INFORMATION

Other Industries & Services by Mauldin & Jenkins:

Each of Mauldin & Jenkins' offices provides a wide variety of services to a broad range of clientele. We have partners and managers who are responsible for specialized practice areas of auditing and accounting, taxes and management advisory services. Their purpose, as leaders in the particular practice area, is to establish policies with respect to technical matters in these specific areas and ensure that the quality of the Firm's practice is maintained.

<u>Industries Served:</u> Over the years our partners have developed expertise in certain industries representative of a cross section of the Georgia economy, including:

- Governmental Entities (state entities, cities, counties, school systems, business type operations, libraries, and other special purpose entities)
- SEC Registrants
- Wholesale Distribution
- Agri-Businesses
- Manufacturing
- Professional Services
- Employee Benefit Plans

- Financial Institutions (community banks, savings & loans, thrifts, credit unions, mortgage companies, and finance companies)
- Non-Profit Organizations
- Retail Businesses
- Long-term Healthcare
- Construction & Development
- Individuals, Estates and Trusts
- Real Estate Management

<u>Services Provided:</u> This diversity of practice enables our personnel to experience a wide variety of business, accounting and tax situations. We provide the traditional and not-so-traditional services such as:

- Financial Audit / Review / Compilation
- Compliance Audits & Single Audits
- Agreed-Upon Procedures
- Forensic Audits
- Bond Issuance Services
- Performance Audits
- State Sales Tax Matters
- International Tax Matters
- Business & Strategic Planning
- Profitability Consulting
- Budgeting
- Buy-Sell Agreements & Business Valuation Issues

- Income Tax Planning & Preparation
- Multi-State Income Tax Issues
- Information Systems Consulting
- Cost Accounting Analysis
- Healthcare Cost Reimbursement
- Outsourced Billing Services
- Fixed Asset Inventories
- Succession & Exit Strategy Consulting
- Estate Planning
- Management Information Systems
- Employee Benefit Plan Administration
- Merger / Acquisition & Expansion Financing

Annual Audit Agenda
December 31, 2013

INDEPENDENT AUDITOR'S REPORT

The standard independent auditor's report for governmental units has specific sections of significance to readers of the financial report.

Management's Responsibility for the Financial Statements

The financial statements are the responsibility of management.

Auditor's Responsibility

Our responsibility, as external auditors, is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. We planned and performed our audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

Opinion

We have issued an unmodified audit report (i.e., "clean opinion"). The financial statements are considered to present fairly the financial position and results of operations as of, and for the year ended December 31, 2013.

Other Reporting

Government Auditing Standards require auditors to issue a report on our consideration of internal control over financial reporting and on our tests of compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. We have issued such a report and reference to this report is included in the independent auditor's report.

Annual Audit Agenda
December 31, 2013

REVIEW OF COMPREHENSIVE ANNUAL FINANCIAL REPORT (CAFR)

General Information About the CAFR

A Comprehensive Annual Financial Report (CAFR) goes beyond the normal financial reporting required by accounting principles generally accepted in the United States. A CAFR includes at a minimum the following elements/sections:

- **Introductory Section:** general information on the City's structure and the services it provides.
 - Letter of Transmittal
 - Organizational Chart
 - Directory of Officials
 - Certificate of Achievement for Excellence in Financial Reporting
- **Financial Section:** basic financial statements, footnotes and required supplementary information along with the auditor's report.
 - Independent Auditor's Report
 - Management Discussion & Analysis (MD&A)
 - Financial Statements and Footnotes
- Statistical Section: broad range of financial, demographic information useful in assessing the City's economic condition, and this information covers multiple years.
 - Financial Trends Information
 - Revenue Capacity Information
 - Debt Capacity Information
 - Operating Information

In the end, a CAFR goes far beyond the basic requirements of annual financial reporting, and the City should be commended for going beyond the minimum and providing such a report.

Annual Audit Agenda
December 31, 2013

REVIEW OF COMPREHENSIVE ANNUAL FINANCIAL REPORT (CAFR)

Recognition and Award

Once completed, the fiscal year 2012 CAFR was submitted to the Government Finance Officers Association (GFOA)) for determination if the report would merit the GFOA's Certificate of Achievement for Excellence in Financial Reporting. We are happy to inform everyone that the GFOA did indeed review the CAFR and awarded the City with the sought after Certificate.

The GFOA Certificate has been made a part of the City's 2013 fiscal year CAFR, and is included in the Introductory Section.

Annual Audit Agenda
December 31, 2013

REVIEW OF FINANCIAL STATEMENTS AND FOOTNOTES

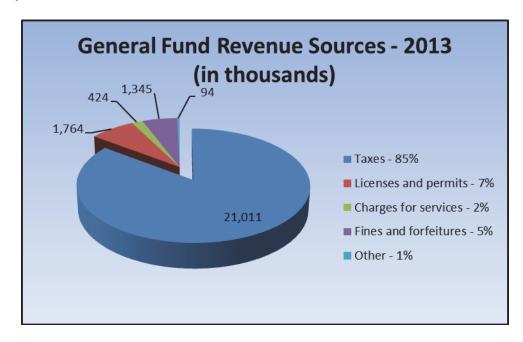

The City's basic financial statements include three components: (1) government-wide financial statements; (2) fund financial statements; and (3) notes to the financial statements.

The **government-wide financial statements** provide a broad overview of all of the City's funds, as well as its discretely presented component units. The *Statement of Net Position* presents information on all assets and liabilities of the City, with the difference between the two reported as net assets. The *Statement of Activities* presents information showing how the City's net position changed during the most recent fiscal year. Revenues are categorized as program revenues or general revenues. Expenses are categorized by function.

The **fund financial statements** more closely resemble the financial statements as presented prior to the adoption of GASB Statement No. 34. All of the funds of the City can be divided into three categories: governmental funds, enterprise funds and fiduciary funds.

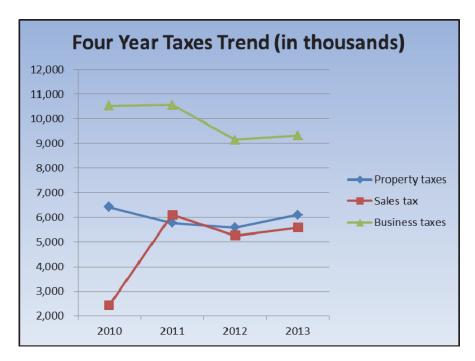

General Fund

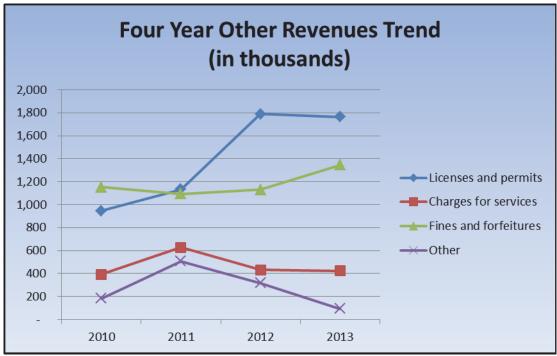

Of primary interest to the City is the **General Fund**, which accounts for the majority of revenues received and funds expended in the operations of the City, including general government activities, judicial, public safety, public works, recreation, and community development. The following charts present the sources of revenues and the expenditures of the General Fund for the fiscal year ended December 31, 2013:

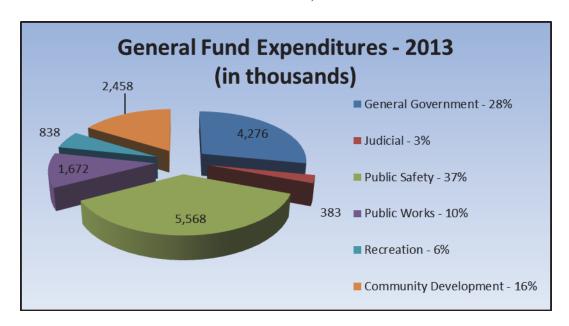

Annual Audit Agenda
December 31, 2013

Total General Fund revenues for the fiscal year ended December 31, 2013 were \$24,638. Revenues of the prior year were \$23,669. The most significant variances were increases in property taxes of \$517, sales taxes or \$324, and fines and forfeitures revenues of \$216. Below is a trending of the City's General Fund revenues over the past four (4) years.

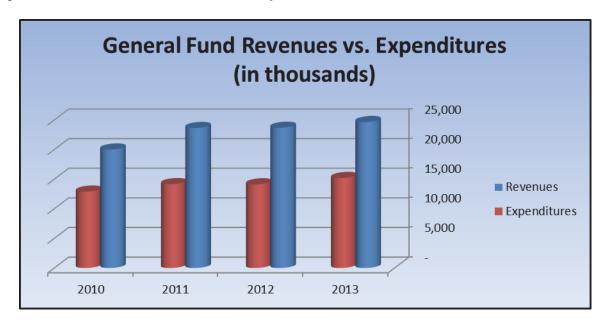

Annual Audit Agenda
December 31, 2013

Total expenditures during the year ended December 31, 2013 were \$15,193. Expenditures of the prior year were \$14,120. This was a increase of \$1,073.

More detailed explanations of variances can be found in the Management's Discussion and Analysis section of the financial statements. An analysis of General Fund revenues and expenditures for each of the last five fiscal years is as follows.

Annual Audit Agenda
December 31, 2013

Other Governmental Funds

The City also maintains five (5) *special revenue funds*. These funds account for revenues derived from specific sources which are legally restricted to finance particular functions or activities. The City also maintains one (1) *Capital projects fund* to be used to account for revenues and expenditures related to the renovation and/or construction of major capital assets. The City also maintains two (2) *Debt service fund* to be used to account for the payment of general long-term debt principal, interest and agent's fees.

Statement of Net Position

This statement attempts to provide a reader of the financial statements with a full accrual perspective and reflects separately the governmental activities from the business-type activities. Both such columns are on the full accrual basis of accounting.

The City's governmental activities equity position increased from approximately \$78,103,000 to \$85,247,000 while its business-type activities equity position decreased from approximately \$3,625,000 to \$3,410,000. These changes are reconciled on the City's "Statement of Activities".

In reference to the City's net position, it is important to note that approximately \$60,391,000 and \$1,606,000 for governmental activities and business-type activities, respectively, of total net position is invested in capital assets (net of any related debt). While the City is reflecting total net position of \$85,247,000 and \$3,410,000 for governmental activities and business-type activities, respectively, only \$21,931,000 and \$1,803,000 for governmental activities and business-type activities, respectively, is unrestricted and considered available for operations.

Statement of Activities

This statement reflects the net costs of providing governmental and business-type activities on the full accrual basis of accounting and reconciles to the statement of net position.

Footnotes

Note 1 - Accounting Policies

This footnote discusses the overall organization of the City and the nature of its operations. This note also discloses pertinent information regarding the governing body of the City.

This footnote continues by sharing with a reader of the financial statements the significant accounting polices and principles utilized in the preparation of the financial statements

Annual Audit Agenda
December 31, 2013

Footnotes (continued)

Note 2 - Reconciliation of Government-wide Financial Statements and Fund Financial Statements

This footnote provides additional detailed information, that is not already shown within the financial statements themselves, on the differences between the City's fund level financial statements and it's government-wide financial statements.

Note 3 - Legal Compliance - Budgets

This footnote discloses the City's procedures in establishing its annual budget and discloses the City's excesses of actual expenditures over appropriations for the year, if any.

Note 4 - Deposits and Investments

This disclosure addresses common deposit and investment risks related to credit risk, concentration of credit risk, and interest rate risk.

Note 5 - Receivables

This footnote discloses the City's property tax calendar and detailed information on various receivable (and allowances for doubtful receivables) balances.

Note 6 - Capital Assets

This footnote discloses the City's capital asset activity and its related accumulated depreciation for the year.

Note 7 - Long-Term Debt

This footnote discloses the City's long-term debt activity for the year, and other information and maturities for this long-term debt.

Note 8 - Interfund Receivables, Payables, and Transfers

This footnote discloses detailed information on the City's interfund balances and transfers and the purpose for these balances and transactions.

Annual Audit Agenda
December 31, 2013

Footnotes (continued)

Note 9 - Operating Leases

This footnote discloses detailed information on the City's operating leases outstanding at year end and the future payments of the leases.

Note 10 - Commitments and Contingencies

This footnote discloses the contingencies from potential litigation, claims, and assessments filed against the City and significant contractual commitments of the City at year-end.

Note 11 - Defined Contribution Pension Plan

This footnote discloses the details of the City's Defined Contribution Plans.

Note 12 - Joint Venture

These footnotes disclose the City's relationship with the Atlanta Regional Commission.

Note 13 - Hotel/Motel Lodging Tax

This footnote discloses the City's tax rate for hotel/motel taxes, along with the amounts and nature of these revenues and expenditures.

Note 14 - Motor Vehicle Excise Tax

This footnote discloses the City's tax for motor vehicle excise taxes, along with the amounts and nature of these revenues and expenditures.

Note 15 - Risk Management

This footnote discloses the City's various risks of loss and the measures the City has taken to mitigate those potential losses.

Note 16 - Change in Reporting Entity

This footnote discloses the City's accounting treatment for the separate reporting of Confiscated Asset Fund in accordance with the State chart of accounts.

Annual Audit Agenda
December 31, 2013

COMPLIANCE REPORT

The financial report package contains two (2) compliance reports.

Yellow Book Report - The first compliance report is a report on our tests of the City's internal controls and compliance with laws, regulations, etc. The tests of internal controls were those we determined to be required as a basis for designing our financial statement auditing procedures. Such tests also considered the City's compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. In accordance with the respective standards, the report is **not** intended to provide an opinion, but to provide a form of negative assurance as to the City's internal controls and compliance with applicable rules and regulations.

Single Audit Report - The second compliance report is a report on our tests of the City's internal controls and compliance with laws, regulations, etc. relative to certain Federal grant programs and the respective expenditures. In accordance with the respective standards, we did provide an unqualified (or positive) opinion on the City's compliance based on our audit. However, we were not required to provide an opinion on the relevant internal controls, but to provide a form of negative assurance on such controls.

REQUIRED COMMUNICATIONS

The Auditor's Responsibility Under Auditing Standards Generally Accepted in the United States of America

Our audit of the financial statements of the City of Dunwoody, Georgia (the "City") for the year ended December 31, 2013 was conducted in accordance with auditing standards generally accepted in the United States of America and *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether caused by error, fraudulent financial reporting or misappropriation of assets. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. Accordingly, the audit was designed to obtain reasonable, rather than absolute, assurance about the financial statements. We believe our audit accomplishes that objective.

In accordance with *Government Auditing Standards*, we have also performed tests of controls and compliance with laws and regulations that contribute to the evidence supporting our opinion on the financial statements. However, they do not provide a basis for opining on the City's internal control or compliance with laws and regulations.

Annual Audit Agenda
December 31, 2013

Accounting Policies

Management has the ultimate responsibility for the appropriateness of the accounting policies used by the City. There were no significant new accounting policies or standards implemented this year. There are new accounting standards which will be required to be implemented in the coming years. These are discussed later in this document.

In considering the qualitative aspects of the City's accounting policies, we did not identify any significant or unusual transactions or significant accounting policies in controversial or emerging areas for which there is a lack of authoritative guidance or consensus. The City's policies relative to the timing of recording of transactions are consistent with GAAP and typical government organizations.

Management Judgments and Accounting Estimates

Accounting estimates are an integral part of the preparation of financial statements and are based upon management's current judgment. The process used by management encompasses their knowledge and experience about past and current events and certain assumptions about future events. Management has informed us they used all the relevant facts available to them at the time to make the best judgments about accounting estimates and we considered this information in the scope of our audit. We also considered this information and the qualitative aspect of management's calculations in evaluating the City's significant accounting estimates. Estimates significant to the financial statements include such items as the estimated allowance for uncollectible accounts receivable, and the estimated lives of capital assets.

Financial Statement Disclosures

The footnote disclosures to the financial statements are also an integral part of the financial statements. The process used by management to accumulate the information included in the disclosures was the same process used in accumulating the financial statements and the accounting policies described above are included in those disclosures. The overall neutrality, consistency, and clarity of the disclosures was considered as part of our audit and in forming our opinion on the financial statements.

Significant Difficulties Encountered in Performing the Audit

We encountered no difficulties in dealing with management relating to the performance of the audit

Annual Audit Agenda December 31, 2013

Audit Adjustments

During our audit of the City's basic financial statements as of and for the year ended December 31, 2013, we recorded a number of audit adjustments. These audit adjustments have been delivered to and discussed with management. Additionally, we have provided these adjustments as an attachment to this document for your review and discussion.

Uncorrected Misstatements

We accumulated no uncorrected misstatements.

Disagreements with Management

We encountered no disagreements with management over the application of significant accounting principles, the basis for management's judgments on significant matters, the scope of the audit or significant disclosures to be included in the financial statements.

Representation from Management

We requested written representations from management relating to the accuracy of information included in the financial statements and the completeness and accuracy of various information requested by us, during the audit. Management provided those written representations without a problem.

Management's Consultations with Other Accountants

We are not aware of any consultations management had with other accountants about accounting or auditing matters.

Significant Issues Discussed With Management

There were no significant issues discussed with management related to business conditions, plans, or strategies that may have affected the risk of material misstatement of the financial statements. We are not aware of any consultations management had with us or other accountants about accounting or auditing matters. No major issues were discussed with management prior to our retention to perform the aforementioned audit.

Independence

We are independent of the City, and all related organizations, in accordance with auditing standards promulgated by the American Institute of Public Accountants and *Government Auditing Standards*, issued by the Comptroller General of the United States.

Annual Audit Agenda
December 31, 2013

Other Information in Documents Containing Audited Financial Statements

We are not aware of any other documents that contain the audited basic financial statements. If such documents were to be published, we would have a responsibility to determine that such financial information was not materially inconsistent with the audited statements of the City.

ACCOUNTING RECOMMENDATIONS AND RELATED MATTERS

Recommendations for Improvement

During our audit of the financial statements as of and for the year ended December 31, 2013, we noted areas within the accounting and internal control systems that we believe can be improved. We noted certain items as material weaknesses in our supplemental reports on internal controls and compliance. We noted certain items management should consider as part of its decision making process. Our recommendations (also commonly referred to as management points) are presented in the following paragraphs. We believe consideration of these recommendations will help provide proper control over financial activities, and add effectiveness and efficiency to overall operations.

As noted in our supplemental reports on internal controls and compliance, we reported the following significant deficiencies:

Material Weaknesses

1) Internal controls were not sufficient to detect certain misstatements in the reporting of the City's expenditures/expenses and liabilities. During our testing of expenditures/expenses, certain audit adjustments were required to correct current year amounts. Accounts payable and related expenses required an adjustment of approximately \$55,000 in the Stormwater Fund. As a result of our review of unrecorded expenses, we identified an invoice for which services were provided prior to December 31, 2013; however the expenses were not properly accrued into the City's general ledger. Audit adjustments totaling \$55,000 were required to correctly report expenditures/expenses and related liabilities.

Significant Deficiency

2) The City could not provide a detail listing of the Due to Others, reported as a liability in the Municipal Court Fund, in the amount of approximately \$51,000. During our review of reconciliations performed by the City, liabilities totaling approximately \$51,000 do not have the proper documentation to identify who the funds are owed to; therefore, the City is not able to perform the necessary procedures to remit these funds to the entity or individual it is owed to. Without a detail listing, the risk of misappropriation of funds is greatly increased as the City does not maintain a detail listing of the Due to Others as reported in the Municipal Court Fund. We recommend

Annual Audit Agenda
December 31, 2013

the City's Finance Department continue to research these funds to identify who the funds belong to.

Non Compliance

3) The City is a recipient of Homestead Option Sales Tax (HOST) proceeds and in accordance with the DCA State chart of accounts should record the proceeds in a HOST Fund, separate from the City's General Fund. The City was not maintained the separate fund for the HOST collections, but was rather reporting separately within the City's General Fund. The City is not compliant with the DCA chart of accounts. As of December 31, 2013 the General Fund is reporting \$2,788,116 of restricted fund balance which should be reported in a separate HOST Fund.

Management Point

During our testing of the City's accrued revenues, we noted the December franchise tax revenue was not properly accrued as of December 31, 2013. The City was understating revenues and the related receivables by approximately \$84,000 in the General Fund. We recommend the City carefully review their revenue collections during the year-end close out procedures to ensure all monthly remittances have been collected or accrued as of December 31.

Other Matters

During our audit of the financial statements as of and for the year ended December 31, 2013, we noted other matters which we wish to communicate to you in an effort to keep the City abreast of accounting matters that could present challenges in financial reporting in future periods.

1) New Governmental Accounting Standards Board (GASB) Pronouncements

As has been the case for the past 10 years, GASB has issued several other new pronouncements which will be effective in future years. The following is a brief summary of the new standards:

- a) Statement No. 57, *OPEB Measurements by Agent Employers and Agent Multiple Employer Plans* is effective the year ending December 31, 2012. The City was not affected by the implementation of this statement.
- b) **Statement No. 60,** Accounting and Financial Reporting for Service Concession Arrangements is effective for the fiscal year ending December 15, 2012. This statement addresses arrangements where a transferor conveys to an operator the right, and related obligation, to provide public services through the use and operation of a capital asset in exchange for significant consideration. The City should continue to apply certain due diligence to addressing the potential for requirements related to this pronouncement. The City was not significantly affected by the implementation of this statement.

Annual Audit Agenda
December 31, 2013

- c) Statement No. 61, The Financial Reporting Entity: Omnibus (An Amendment to GASB No.'s 14 and 34) will be effective for fiscal years beginning after June 15, 2012 however has been early implemented during the year ending December 31, 2011. This standard addresses the concept and definition of a component unit. This statement raises the bar for an entity to be included in another primary government's financial statements. Additionally, the criteria determining whether a component unit should be blended or discretely presented has changed significantly, most notably that if it is expected that the primary government will repay substantially all of the component unit's debt, then the component unit should be blended. This statement also addresses the recognition of joint venture arrangements with other governmental units. The City should continue to apply certain due diligence to addressing the potential effects from adopting the requirements of this pronouncement.
- d) Statement No. 62, Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements will be effective for fiscal years beginning after December 15, 2011 resulting in the City's fiscal year ending December 31, 2012. The provisions of this pronouncement generally are required to be applied retroactively for all periods presented.

FASB has adopted a new codification and its original pronouncements are considered to be non-authoritative. This standard identifies those provisions in FASB Statements & Interpretations, APB Opinions, ARB's, and AICPA Accounting Interpretations issued before November 30, 1989 that are applicable to state and local governmental entities and incorporated into the GASB's literature. GASB Statement No. 20 is superseded by this statement. Matters of significance to the City that are specifically addressed in this new standard include:

- Capitalization of interest costs
- Statement of net asset's classifications
- Special and extraordinary items
- Comparative financial statements
- Related party activities, transactions and relationships
- Prior period adjustments and restatements
- Accounting changes and error corrections
- Contingencies
- Extinguishment of debt
- Troubled debt restructuring
- Inventory
- Leases (capital, operating, etc.)
- Sales of real estate
- Real estate projects
- Research and development arrangements
- Broadcasters
- Cable television systems
- Insurance enterprises

Annual Audit Agenda
December 31, 2013

- Lending activities
- Mortgage banking activities
- Regulated operations
- e) Statement No. 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position will be effective for fiscal years beginning after December 15, 2011 resulting in the City's fiscal year ending December 31, 2012.

This statement is intended to improve financial reporting by providing citizens and other users of state and local government financial reports with information about how past transactions will continue to impact a government's financial statements in the future. This statement provides a new statement of net position format to report all assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position (which is the net residual amount of the other elements or "equity"). This statement of net position replaces what was previously presented as the statement of net assets and does not change the title of the governmental fund balance sheet or fund balance. This statement requires that deferred outflows of resources and deferred inflows of resources be reported separately from assets and liabilities.

A deferred outflow of resources is a consumption of net assets that is applicable to a future reporting period. An example of a deferred outflow of resources is a government's hedging interest rate swap agreement in which the fair value becomes negative. If the hedge is determined to be effectively offsetting the changes in fair value of the debt, the decrease in the fair value of the derivative instrument would be reported as a liability with a corresponding deferred outflow of resources to reflect the fact that this decrease is not expected to be recognized in investment income in future periods.

A deferred inflow of resources is an acquisition of net assets that is applicable to a future reporting period. An example of a deferred inflow of resources is a service concession arrangement that involves a public toll road. If the government receives an up-front payment from an operator, the revenue associated with that payment will be recognized in future years because the arrangement that generated the up-front payment relates to those periods.

Statement No. 63 also amends certain provisions of Statement No. 34, Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments, and related pronouncements to reflect the residual measure in the statement of financial position as net position, rather than net assets and to include deferred amounts in the major fund calculation with assets or liabilities, as applicable.

Annual Audit Agenda
December 31, 2013

A further breakdown of the change in the balance sheet presentation to the new statement of net position is as follows:

Assets:		Liabilities:	
Current:		Current:	
Cash	\$ XXX	Accounts Payable	\$ XXX
Accounts Receivable	XXX	Accrued Expenses	XXX
Inventory	XXX	Bonds Payable	XXX
Prepaids	 XXX	Notes Payable	 XXX
	\$ XXX		\$ XXX
Non-current:		Non-current:	
Fixed Assets	\$ XXX	Bonds Payable	\$ XXX
Accumulated Depreciation	XXX	Notes Payable	XXX
	\$ XXX		\$ XXX
Total Assets	\$ XXX	Total Liabilities	\$ XXX
Deferred Outflows:		Deferred Inflows:	
Grants Paid in Advance		Grants Received in Advance	
of Timing Requirements	\$ XXX	of Timing Requirements	\$ XXX
Total Deferred Outflows	\$ XXX	Taxes Received in Advance	XXX
		Total Deferred Outflows	\$ XXX
		Net Position:	
		Net Investment in Capital	
		Assets	\$ XXX
		Restricted	XXX
		Unrestricted	XXX
		Net Position	\$ XXX

f) Statement No. 65, Items Previously Reported as Assets and Liabilities will be effective for fiscal years beginning after December 15, 2012 resulting in the City's fiscal year ending December 31, 2013. Although implementation is a year later, this standard goes along with the previously discussed Statement 63. GASB Concepts Statement No. 4, Elements of Financial Statements, and Statement 63 specify that recognition of deferred outflows and deferred inflows should be limited to those instances specifically identified in authoritative GASB pronouncements. Consequently, guidance was needed to determine which balances being reported as assets and liabilities should actually be reported as deferred outflows of resources or deferred inflows of resources, according to the definitions in Concepts Statement 4. Based on those definitions, Statement 65 reclassifies certain items currently being reported as assets and liabilities as deferred outflows of resources and deferred inflows of resources. In addition, this Statement recognizes certain items currently being reported as assets and liabilities as outflows of resources (expense) and inflows of resources (revenue).

Examples of these changes are as follows:

Annual Audit Agenda December 31, 2013

Reclassifying certain assets to be deferred outflows of resources:

- Grants paid in advance of meeting time requirements;
- Deferred amounts from refunding of debt (debits);
- Costs to acquire rights to future revenues;
- Deferred losses from sale-leasebacks;

Reclassifying certain liabilities to be deferred inflows of resources:

- Grants received in advance of meeting time requirements;
- Taxes received in advance:
- Deferred amounts from refunding of debt (credits);
- Proceeds from sales of future revenues:
- Deferred gains from sale-leasebacks;
- "Unavailable" revenue in governmental funds.

Recognizing certain assets as outflows (expenses):

- Debt issuance Costs (other than bond insurance);
- Initial costs incurred by lessor in an operating lease;
- Loan origination costs (by entities in the lending business);
- Costs to acquire loans.

Recognizing certain assets as inflows (revenues):

- Loan origination fees, excluding points (by entities in the lending business);
- Commitment fees (after exercise or expiration):
- Fees received for sales of loans.

The City elected to early implement the provisions of this pronouncement in conjunction with Statement No. 63.

g) **Statement No. 66,** *Technical Corrections* – *2012* will be effective for fiscal years beginning after December 15, 2012 resulting in the City's fiscal year ending December 31, 2013. This pronouncement amends Statement No. 10, *Accounting and Financial Reporting for Risk Financing and Related Insurance Issues,* by removing the provision that limits fund-based reporting of a state and local government's risk financing activities to the general fund and the internal service fund type. As a result, governments would base their decisions about governmental fund type usage for risk financing activities on the definitions in Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions.*

This Statement also amends Statement No. 62, Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements, by modifying the specific guidance on accounting for: (1) operating lease payments that vary from a straight-line basis; (2) the difference between the initial

Annual Audit Agenda
December 31, 2013

investment (purchase price) and the principal amount of a purchased loan or group of loans; and, (3) servicing fees related to mortgage loans that are sold when the stated service fee rate differs significantly from a current (normal) servicing fee rate. These changes would eliminate any uncertainty regarding the application of Statement No. 13, Accounting for Operating Leases with Scheduled Rent Increases, and result in guidance that is consistent with the requirements in Statement No. 48, Sales and Pledges of Receivables and Future Revenues and Intra-Entity Transfers of Assets and Future Revenues, respectively.

h) **Statement No. 67,** *Financial Reporting for Pension Plans* will be effective for fiscal years beginning after June 15, 2013 resulting in the City's fiscal year ending December 31, 2014. This pronouncement replaces the requirements of Statement No. 25, *Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans* and Statement 50 as they relate to pension plans that are administered through trusts or similar arrangements meeting certain criteria.

Statement No. 67 builds upon the existing framework for financial reports of defined benefit pension plans, which includes a statement of fiduciary net position (the amount held in a trust for paying retirement benefits) and a statement of changes in fiduciary net position. Statement No. 67 enhances note disclosures and RSI for both defined benefit and defined contribution pension plans. Statement No. 67 also requires the presentation of new information about annual money-weighted rates of return in the notes to the financial statements and in 10-year RSI schedules.

The changes noted above by Statement No. 67 are significant to pension plans, and we strongly encourage City officials to review the actual pronouncement and consider the potential effects on the financial reporting of the City.

i) Statement No. 68, Accounting and Reporting for Pensions will be effective for fiscal years beginning after June 15, 2014 resulting in the City's fiscal year ending December 31, 2015. This pronouncement replaces the requirements of Statement No. 27, Accounting for Pensions by State and Local Governmental Employers and Statement No. 50, Pension Disclosures, as they relate to governments that provide pensions through pension plans administered as trusts or similar arrangements that meet certain criteria, including agent and cost-sharing multiple employer plans.

Statement No. 68 requires governments providing defined benefit pensions to recognize their long-term obligation for pension benefits as a liability for the first time, and to more comprehensively and comparably measure the annual costs of pension benefits. The Statement also enhances accountability and transparency through revised and new note disclosures and required supplementary information (RSI).

<u>Defined Benefit Pension Plans</u>. Statement No. 68 requires governments that participate in defined benefit pension plans to report in their statement of net position a net pension liability. The net pension liability is the difference between the total pension liability (the

Annual Audit Agenda December 31, 2013

present value of projected benefit payments to employees based on their past service) and the assets (mostly investments reported at fair value) set aside in a trust and restricted to paying benefits to current employees, retirees, and their beneficiaries.

Statement No. 68 calls for <u>immediate recognition of more pension expense</u> than is currently required. This includes immediate recognition of annual service cost and interest on the pension liability and immediate recognition of the effect on the net pension liability of changes in benefit terms. Other components of pension expense will be recognized over a closed period that is determined by the average remaining service period of the plan members (both current and former employees, including retirees). These other components include the effects on the net pension liability of: (1) changes in economic and demographic assumptions used to project benefits; and, (2) differences between those assumptions and actual experience. Lastly, the effects on the net pension liability of differences between expected and actual investment returns will be recognized in pension expense over a closed five-year period.

Statement No. 68 requires cost-sharing employers to record a liability and expense equal to their proportionate share of the collective net pension liability and expense for the cost-sharing plan. The Statement also will improve the comparability and consistency of how governments calculate the pension liabilities and expense. These changes include:

- **Projections of Benefit Payments.** Projections of benefit payments to employees will be based on the then-existing benefit terms and incorporate projected salary changes and projected service credits (if they are factors in the pension formula), as well as projected automatic postemployment benefit changes (those written into the benefit terms), including automatic cost-of-living-adjustments (COLAs). For the first time, projections also will include ad hoc postemployment benefit changes (those not written into the benefit terms), including ad hoc COLAs, if they are considered to be substantively automatic.
- **Discount Rate.** The rate used to discount projected benefit payments to their present value will be based on a single rate that reflects (a) the long-term expected rate of return on plan investments as long as the plan net position is projected under specific conditions to be sufficient to pay pensions of current employees and retirees and the pension plan assets are expected to be invested using a strategy to achieve that return; and (b) a yield or index rate on tax-exempt 20-year, AA-or-higher rated municipal bonds to the extent that the conditions for use of the long-term expected rate of return are not met.
- Attribution Method. Governments will use a single actuarial cost allocation method "entry age," with each period's service cost determined as a level percentage of pay.

Annual Audit Agenda
December 31, 2013

Note Disclosures and Required Supplementary Information. Statement No. 68 also requires employers to present more extensive note disclosures and RSI, including disclosing descriptive information about the types of benefits provided, how contributions to the pension plan are determined, and assumptions and methods used to calculate the pension liability. Single and agent employers will disclose additional information, such as the composition of the employees covered by the benefit terms and the sources of changes in the components of the net pension liability for the current year. A single or agent employer will also will present RSI schedules covering the past 10 years regarding:

- Sources of changes in the components of the net pension liability
- Ratios that assist in assessing the magnitude of the net pension liability
- Comparisons of actual employer contributions to the pension plan with actuarially determined contribution requirements, if an employer has actuarially determined contributions.

Cost-sharing employers also will present the RSI schedule of net pension liability, information about contractually required contributions, and related ratios.

<u>Defined Contribution Pensions</u>. The existing standards for governments that provide defined contribution pensions are largely carried forward in this new statement. These governments will recognize pension expenses equal to the amount of contributions or credits to employees' accounts, absent forfeited amounts. A pension liability will be recognized for the difference between amounts recognized as expense and actual contributions made to a defined contribution pension plan.

<u>Special Funding Situations</u>. Certain governments are legally responsible for making contributions directly to a pension plan that is used to provide pensions to the employees of another government. For example, a state is legally required to contribute to a pension plan that covers local school districts' teachers. In specific circumstances called special funding situations, the Statement requires governments that are non-employer contributing entities to recognize in their own financial statements their proportionate share of the other governmental employers' net pension liability and pension expense.

The changes noted above by Statement No. 68 are significant to Governments who sponsor retirement plans, and we strongly encourage City officials to review the actual pronouncement and consider the potential effects on the financial reporting of the City.

Annual Audit Agenda
December 31, 2013

- j) Statement No. 69, Government Combinations and Disposals of Government Operations will be effective for periods / fiscal years for years beginning after December 15, 2013 resulting in the City's fiscal year ending December 31, 2014. This pronouncement primarily applies to governments involved in some form of mergers, acquisitions, transfers of operations or disposal of operations. Unless the City enters into any agreements whereby such actions are anticipated, this pronouncement should not affect the City.
- k) Statement No. 70, Accounting and Financial Reporting for Non-exchange Financial Guarantees will be effective for fiscal years beginning after June 15, 2013 resulting in the City's fiscal year ending December 31, 2015. City officials should review the provisions of this new pronouncement and determine if the City is a party to any form of non-exchange guarantees. If the City has ever entered into any currently active guarantee agreements, the City may be required to record certain accounting entries and, or disclose relevant details surrounding the guarantees.

Summations of Thoughts Noted Above

We believe the implementation of these suggestions will enhance both the control environment and the financial reporting process, making both more effective. We also believe these recommendations can be easily implemented, and all problems resolved quite timely should management elect to employ the corrective measures.

Annual Audit Agenda

FREE QUARTERLY CONTINUING EDUCATION AND NEWSLETTERS FOR GOVERNMENTAL CLIENTS

Free Continuing Education. We provide free quarterly continuing education for all of our governmental clients. Each quarter we pick a couple of significant topics tailored to be of interest to governmental entities. In an effort to accommodate our entire governmental client base, we offer the sessions several times per quarter at a variety of client provided locations resulting in greater networking among our governmental clients. We normally see approximately 100 people per quarter. We obtain the input and services of experienced outside speakers along with providing the instruction utilizing our in-house professionals. We hope City staff and officials have been able to participate in this opportunity, and that it has been beneficial to you. Examples of subjects addressed in the past few quarters include:

- 1. American Recovery & Reinvestment Act (ARRA) information and issues;
- 2. GASB updates (several sessions);
- 3. Internal Controls Over Revenue and Cash Receipting;
- 4. Collateralization of Deposits and Investments;
- 5. SPLOST Accounting, Reporting and Compliance;
- 6. Internal Controls Over Accounts Payable, Payroll and Cash Disbursements;
- 7. Capital Asset Accounting Processes and Controls;
- 8. Grant Accounting Processes and Controls;
- 9. American Recovery & Reinvestment Act (ARRA) Updates;
- 10. Policies and Procedures Manuals;
- 11. Segregation of Duties;
- 12. GASB No. 51 Intangible Assets;
- 13. Single Audits for Auditees;
- 14. GASB No. 54 Governmental Fund Balance (subject addressed twice);
- 15. Best Budgeting Practices, Policies and Processes:
- 16. Internal Revenue Service (IRS) Compliance Issues, Primarily Payroll Matters;
- 17. CAFR Preparation (several times including a two (2) day hands-on course).
- 18. GASB No. 60, Service Concession Arrangements (webcast)
- 19. GASB No.'s 63 & 65, Deferred Inflows and Outflows (webcast)
- 20. GASB No. 61, the Financial Reporting Entity (webcast)

<u>Governmental Newsletters.</u> We produce newsletters tailored to meet the needs of governments. The newsletters have addressed a variety of subjects and are intended to be timely in their subject matter. The <u>newsletters are authored by Mauldin & Jenkins partners and managers</u>, and are <u>not purchased</u> from an outside agency. The newsletters are produced and delivered periodically {approximately ten (10) times per year}, and are intended to keep you informed of current developments in the government finance environment.

<u>Communication.</u> In an effort to better communicate our free continuing education plans and newsletters, please email Lauren Payne at <u>LPayne@mjcpa.com</u> (send corresponding copy to <u>afraley@mjcpa.com</u>), and provide to her individual names, mailing addresses, email addresses and phone numbers of anyone you wish to participate and be included in our database of client.

41 Perimeter Center East, Suite 250 Dunwoody, Georgia 30346 P (678) 382-6700 F (678) 382-6701 dunwoodyga.gov

May 6, 2013
Honorable Mike Davis, Mayor,
Members of the City Council, and
Citizens of Dunwoody, Georgia

Ladies and Gentlemen

State law and local ordinances require that every general-purpose local government publish a complete set of audited financial statements each fiscal year. This report is published to fulfill that requirement for the year ended December 31, 2013. Management assumes full responsibility for the completeness and reliability of the information contained in this report, based on a comprehensive framework of internal controls established for this purpose. Because the cost of internal controls should not exceed anticipated benefits, the objective is to provide reasonable rather than absolute assurance that the financial statements are free of any material misstatements. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and reported in a manner designed to present fairly the financial position and results of operations of the City of Dunwoody, Georgia (the "City").

This report has been prepared in accordance with State statutes set forth in an Act providing uniform standards for audits of municipalities and counties within the State of Georgia, approved March 28, 1968 (p. 464), and as amended by an Act approved April 21, 1968 (GA Laws 1997, p. 883). Mauldin and Jenkins, CPAs, have issued an unqualified ("clean") opinion on the City of Dunwoody's financial statements for the year ended December 31, 2013. The independent auditor's report is located at the front of the financial section of this report.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. The MD&A complements this letter of transmittal and should be read in conjunction with it.

Our History

Dunwoody is located in northern DeKalb County, west of Norcross and east of Sandy Springs; the city is bordered to the north by Dunwoody Club Drive and to the south by Interstate 285. Although not formally recognized as an incorporated city prior to 2008, the residents in this area have always identified themselves as living in "Dunwoody," with a unique history separate from unincorporated DeKalb County. Dunwoody residents have a strong history of community involvement as seen in the establishment of the Dunwoody Homeowners Association in 1969 to the 1998 preservation of the Cheek-Spruill Farmhouse.

Cheek-Spruill House, 2009

The Dunwoody area was originally inhabited by a number of Cherokee tribes, all part of the Creek Indian Confederation. In 1822, the Creek Indians handed over a significant tract of land from which Georgia formed the counties: Monroe, Dooly, Houston, Fayette, and Henry. In 1823, the legislators took portions of Fayette and Henry to form DeKalb County, with Decatur being the County seat. In 1821, Elias Redfield was granted land lot #377, which would eventually become part of the estate of Stephen T. Spruill. This land also passed through the hands of C. A. Dunwoody, in 1862.

Charles Alexander Dunwoody (City of Dunwoody namesake, 1828-1905) was the son of John Dunwoody (originally spelled Dunwody). John Dunwoody was one of the founders of the mills in Roswell, Georgia. The Dunwoody family moved to Roswell in 1839 along with the family's shoe manufacturing business. In 1863, because of the ever-increasing need for mill products during the Civil War, a charter was secured by the State of Georgia to fund the building of a railroad. Both Charles Dunwoody and James King were members of the Roswell Guards and Roswell Battalion. (James King was the grandson of Roswell King, the namesake of Roswell, Georgia).

"Old Buck" Circ. 1918

Following the Civil War and the destruction wrought on Atlanta and its surrounding area, the Dunwoody family returned to Roswell. Major Charles Dunwoody decided to build his family's new home near the present day intersection of Chamblee-Dunwoody Road and Spalding Drive. Railroad construction resumed and the new, 9.8-mile line opened for business on September 1, 1881, running between the Air-Line Railroad and the Chattahoochee River. The Roswell railroad tied into the Air-Line at Roswell Junction, which is now Chamblee. The railroad carried produce from Dunwoody and fabric from the mills in Roswell. In 1903, the narrow gauge track was replaced with modern tracks, and the engine that ran them soon gained the nicknames "The Dinky" and "Old Buck." Dunwoody thrived as a crossroads community and continued to grow even after the railroad stopped running in 1921.

In 1971 the Spruill family, who owned a large amount of land in the area, sold a portion of their property for the construction of Perimeter Mall and surrounding commercial development. In this area today, you can still find a testament to the founding fathers and land owners visible in a cemetery preserved behind commercial buildings, the Stephen Martin/Spruill Cemetery at the corner of Hammond Drive and Ashford Dunwoody Road. Many other locations have been refurbished or marked as historical sites in order to preserve Dunwoody's historically rich legacy.

Dunwoody Present Day

Dunwoody entered into cityhood at midnight on December 1, 2008 following a community led movement to incorporate the City beginning with the formulation of the Citizens for Dunwoody in the fall of 2006. Dunwoody was voted into cityhood by an overwhelming 81% majority. The City of Dunwoody is approximately 13.2 square miles with an estimated population of over 46,000 residents and an estimated daytime population of over 120,000. Some services are still provided by DeKalb County.

Profile of the Government

The City of Dunwoody operates under a council-manager form of government. The Dunwoody City Council is comprised of a mayor and six council members elected by the people on a nonpartisan ballot for four year terms.

Three members are elected by voters in each of the three separate districts they represent; the other three, including the mayor, are elected by city voters at large. The terms for council members from District Local 1, District Local 2 and District Local 3 expire in January 2018, while terms for the council members from District 1 At Large, District 2 At Large and District 3 At Large, including the mayor, expire in January 2016.

The Council serves as the legislative and policymaking body of the municipal government. They enact city ordinances and appropriate funds to conduct city business and provide policy direction to the administrative staff. The city manager works closely with the City Council to assist them in formulating policies and programs. Overseeing all city employees, the manager is responsible for the efficient ongoing operation of all city services as set forth by the City Council.

In conformity with generally accepted accounting principles, as set forth in Governmental Accounting Standards Board (GASB) Statements No. 61, The Financial Reporting Entity: Omnibus an amendment of GASB Statements No. 14 and No. 39, this report includes all funds of the primary government and any component units. For purposes of this report, the primary government includes all departments and agencies of the City which are not separate legal entities, including the Stormwater Department. The component units include those separate legal entities whose relationships with the primary government meet the criteria for inclusion defined in GASB Statements No. 61, specifically the Convention and Visitors Bureau of Dunwoody, Dunwoody Development Authority, and Urban Redevelopment Agency of the City of Dunwoody.

Local Economy

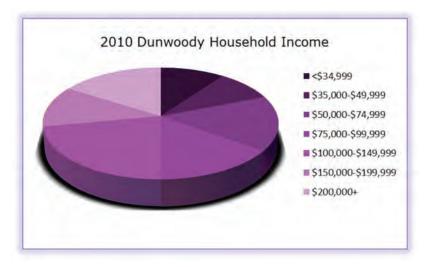

Dunwoody Population, Households, and Forecast: 20	Dunwoody Population.	, Households, and	Forecast:	2000-2030
---	----------------------	-------------------	-----------	-----------

	2000	2008	2013	2020	2025	2030
Population	38,699	43,322	46,267	49,465	51,323	53,019
Households	16,018	18,322	19,944	21,791	22,609	23,356
Avg. Household Sz.	2.38	2.30	2.31	2.27	2.27	2.27

Based on the 2010 US Census, in 2010 DeKalb County had a population of 691,893 people and stood as the third most populous county in the ARC region. DeKalb County has come to represent nearly a sixth of metropolitan Atlanta's total population, a significant figure for a single county considering the region consists of ten counties. Moreover, the County represents 7.1% of the entire population of Georgia. Dunwoody represents 6.7% of the DeKalb population.

The City of Dunwoody contains approximately 40 percent of the Perimeter Community Improvement Districts (PCID). The PCIDs' goal is to work continuously to develop efficient transportation services, with an emphasis on access, mobility, diversification and modernization. The Perimeter Center/ Perimeter Mall area is served by the Dunwoody train station on MARTA's north line, while the other two stations in the area are both on the Fulton County side. Perimeter Mall and the adjacent Perimeter Place shopping complex are the two largest dedicated retail areas housed within city limits. Also included as a primary retail area and considered a central location of Dunwoody is the Dunwoody Village. Within the limits there are approximately 2,300 licensed businesses.

The City of Dunwoody's median household income in 2010 was \$74,297, and the per capita income was \$44,066. DeKalb County (2010), in contrast has a median income of \$46,812 and a per capita income of \$38,094 with Fulton County a bit higher at a median income of \$52,831 (2010) and a per capita income of \$32,562 (2010). This illustrates that the North Fulton/North DeKalb cities have higher incomes than the counties in which they are contained. Georgia numbers are substantially lower at \$46,430 and \$23,383, respectively.

Dunwoody hosts several of the nation's largest companies and virtually every major industry except agriculture within the Perimeter Mall and surrounding commercial properties. Perimeter Mall is the South's second largest shopping mall with 18 million visitors per year. The City's commercial properties comprise over 40% of the total tax digest by property value, ensuring a strong economic environment for the government.

National and Local Economy

Several notable statistics showed signs of economic improvement. Nationally, Real GDP grew last year. State unemployment dropped a percentage point as did the Dunwoody unemployment rate. At 5.4%, Dunwoody's rate remains below the overall DeKalb rate of 7.5%. Dunwoody property tax valuations increased for the first time in the City's brief five-year history. Revenues among the city's five hotels increased 10%. Permitting revenue, an indicator of capital improvements in the community, was over 70% higher than the 2011 level for the second straight year. The national and local economy struggle during this slow recovery period, but despite the struggle, there are indications the worst is in the past. While Dunwoody was not immune to these challenges the City benefits from a diverse revenue stream and an efficiently managed service culture. As a result, Dunwoody has shown positive signs of stability. Additionally, the City has experienced sizable new business and expansions as companies have built out or relocated headquarters in the City over the past year. The City has avoided unmanageable health care costs and pension liabilities experienced by other municipalities by utilizing the Split Contract Service model that provides the City with highly trained staff for a fixed fee cost.

Long-term Financial Planning

Dunwoody is well-positioned for future economic success. The property values increase mentioned above was modest at 2% but still impressive compared to the overall County digest which saw a decrease in unincorporated values. Dunwoody saw new business licenses issued and continued to attract several corporate headquarters. The City's diverse revenue base provides a variety of additional revenues to the millage rate of only 2.74 mills from a variety of sources from groups of local businesses, residents and visitors to the area.

Dunwoody's incorporation and early development took place during a severe recession in the economy requiring the establishment of an effective and efficient structure. The City is better prepared than most but recognizes that the current economic environment creates additional pressure. The City continues to focus on keeping taxes low and making public investments in services and infrastructure. The City invested heavily in infrastructure and put in place several catalytic plans which will create a positive impact well into the future.

The City's policy is to obtain and then maintain a minimum General Fund balance reserve equal to 33% of operating expenditures and a maximum of 67%. Excess fund balances over reserve requirements will be used in subsequent periods for pay-as-you-go capital projects and one-time non-recurring expenditures. As part of the financial strategic plan, the government is committed to a consistent millage rate for property taxes, to facilitate the provision of city services. The City's operating millage rate is 2.74 mills.

Throughout the year, the Finance Department administered the approved financial policies within which the government's finances are maintained. These policies address fund balances, the use of one-time revenues, issuance of debt, purchasing and procurement, cash and investment management, and accounting practices. In totality, these policies formulate the core criteria for which internal evaluations occur. The Finance Department also engaged an independent auditor to evaluate the City's internal control structure and recommend improvements to our structure.

City Council Budget Priorities

The budget adopted by the Mayor and City Council's established priorities including:

- 1. Maintain a safe environment for all residents, businesses and visitors
- 2. Promote responsible and balanced redevelopment
- 3. Actively pursue comprehensive infrastructure improvements
- 4. Create an atmosphere in which businesses thrive.

The legal level of budgetary control (i.e., the level at which expenditures may not legally exceed appropriations) is the department level, within the fund.

Fiscal Year 2013 was the fifth full year of service. Major items implemented during this fiscal year include:

Priority 1 - Maintain a safe environment for all residents, businesses and visitors

- Implemented a Crime Response Team which has been instrumental in reducing Part 1 crime in Dunwoody
- Implemented the Dunwoody Alert Network/CodeRed Program which allows community members to receive critical emergency information
- Continued our commitment for Community Policing by hosting a Citizens Police Academy and participating in 12 Homeowners Association and Neighborhood Watch meetings
- Expanded efforts to rapidly respond to domestic violence assault calls
- Continued participation in the Operation Pill Drop Program leading to the safe disposal of 350 pounds of unused and unneeded drugs

Priority 2 - Promote responsible and balanced redevelopment

- Completed the Zoning Code Rewrite which was adopted by City Council
- Received the Georgia Planning Association Award for Outstanding Plan Implementation for the city's Project Renaissance Initiative in the Georgetown Area
- · Implemented City fire review and plan inspections
- Completed an interior review of all Dunwoody apartments
- Instituted the Facility Improvement Partnership Program with the City's affiliated Recreation Partners which will fund \$250,000 worth of improvements to our facilities
- Partnered with the Dunwoody Preservation Trust to begin the rehabilitation of the Donaldson-Bannister Farm

Priority 3 - Actively pursue comprehensive infrastructure improvements

- Replaced the roof on the North DeKalb Cultural Arts Center
- Resurfaced over nineteen miles of Dunwoody's road network
- Completed construction of Georgetown Park
- Completed construction of the Phase I Multi-Use Trail at Brook Run Park
- Completed over twenty stormwater repairs and pipe replacements
- Installed over 1.5 miles of sidewalk
- Completed right of way acquisition for Dunwoody Village Parkway redevelopment
- Completed design of the Phase II Multi-Use Trail at Brook Run Park
- Completed design and began construction of the new dog park facility at Brook Run Park

Priority 4 - Create an atmosphere in which businesses thrive

- Reported 728,000 square feet of Class-A office space leased through new business development, company expansions and relocations
- Reported 3,086 jobs and over \$42 million capital investment through new business development, company expansions and relocations
- Collected more than \$2.5 million in occupation taxes and \$1.84million in hotel/motel taxes
- Maintained a collaborative relationship with the Code Enforcement Department to track down those business that have failed to pay their occupation taxes
- Maintained a collaborative relationship with the Chamber of Commerce to communicate any pertinent information to our Dunwoody businesses
- Continued focus on retaining existing businesses by participating in over 92 meetings, as well as 123
 meetings with potential property owners and managers focusing on recruitment

Awards and Acknowledgments

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City for its comprehensive annual financial report ended December 31, 2012. This program recognizes those governments that go beyond the minimum requirements of generally accepted accounting principles to prepare CAFR's that represent the spirit of transparency and full disclosure. To be awarded a Certificate of Achievement, the City must publish an easily readable and efficiently organized comprehensive annual report. The report must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA for consideration.

In addition, the City also received the GFOA's Distinguished Budget Presentation Award for the 2013 Budget document. This program recognizes those governments that prepare budget documents of the very highest quality that reflect both the guidelines established by the National Advisory Council on State and Local Budgeting and the GFOA's recommended practices on budgeting. To qualify for the Distinguished Budget Presentation Award, the City's budget document must be proficient as a policy document, financial plan, operations guide, and communications device. This award is valid for a period of one year only. We believe our current 2014 budget continues to conform to program requirements and have submitted it to GFOA to determine its eligibility for another award.

The City also received the GFOA Popular Annual Financial Reporting Award ("PAFR") for its annual citizens' report for the fiscal year ended December 31, 2013. This program recognizes those governments that produce high quality popular annual financial reports specifically designed to be readily accessible and easily understandable to the general public and other interested parties without a background in public finance. This was the 2nd year the City has published this report and received this prestigious award. This award is valid for a period of one year only. We believe our current PAFR continues to conform to program requirements and we are submitting it to GFOA to determine its eligibility for another award.

The preparation of this report is possible because of the efficient and dedicated services of the entire staff of the Department of Finance and the cooperation of all City departments. I would like to express my appreciation to all who assisted and contributed to the preparation of this report. Credit also must be given to the Mayor, City Council, and City Manager for the unfailing support for maintaining the highest standards of professionalism in the oversight of the City's finances.

Respectfully Submitted,

Christopher Pike

City Clerk Sharon Lowery

FINANCIAL SECTION

AUDITOR'S LETTER

INDEPENDENT AUDITOR'S REPORT

The Honorable Mayor and Members of the City Council of the City of Dunwoody, Georgia

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the **City of Dunwoody**, **Georgia**, as of and for the year ended December 31, 2013, and the related notes to the financial statements, which collectively comprise the City of Dunwoody, Georgia's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

200 GALLERIA PARKWAY S.E., SUITE 1700 • ATLANTA, GA 30339-5946 • 770-955-8600 • 800-277-0080 • FAX 770-980-4489 • www.mjcpa.com Members of The American Institute of Certified Public Accountants • RSM International We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Dunwoody, Georgia as of December 31, 2013, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and General Fund – Schedule of Revenues, Expenditures and Changes in Fund Balances – Budget and Actual (GAAP Basis), as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Dunwoody, Georgia's basic financial statements. The combining and individual fund financial statements and schedules, introductory section, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements and schedules are the responsibility of management and were derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated June 10, 2014, on our consideration of the City of Dunwoody, Georgia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the City of Dunwoody, Georgia's internal control over financial reporting and compliance.

Atlanta, Georgia June 10, 2014

MANAGEMENT'S DISCUSSION AND ANALYSIS

The following discussion and analysis of the City of Dunwoody, GA (the "City") provides an introduction to the basic financial statements for the fiscal period ended December 31, 2013. Management prepared this discussion that should be read in conjunction with the basic financial statements, footnotes, and supplementary information found in this report. This information taken collectively is designed to provide readers with an understanding of the City's finances.

CITY ACTIVITY HIGHLIGHTS

The City commenced the delivery of services on January 1, 2009 through an innovative set of partnerships with private sector firms who provide the City with Community Development, Public Works, and administrative services including Finance, IT and Communications. All of our critical staff were in place by December 1, 2008 providing cost efficient and effective service delivery with a specific focus on customer service.

Dunwoody had an exciting and transformative year with many highlights in the areas of parks, public works, and community development. 2013 was an eventful year with the completion of two major park projects, including the opening of the first phase of the Multiuse Trail at Brook Run Park as well as the Georgetown Park, the first new park facility for the City. Design of Phase II of the Brook Run Trail was completed and a contract for its construction was awarded. The City also partnered with the Dunwoody Preservation Trust to begin the rehabilitation of the Donaldson-Bannister Farm. It also contracted Forsite Group to design the new dog park facility at Brook Run Park. Additionally, the City instituted the Facility Improvement Partnership Program with all its affiliated Recreation Partners.

Public Works completed construction of over 1½ miles of sidewalk in 2013 bringing the total sidewalk mileage constructed since incorporation to over 5 miles. The City also worked with other state and local agencies to improve signal timing and communications on all of its major corridors, in addition to re-paving over 19 lane miles of city streets.

The City continued progress on the North Peachtree at Tilly Mill intersection improvement by completing the final design and acquiring the necessary easements and right of way on over half of the parcels. Design work began on intersection improvement projects at two additional locations: Mount Vernon Road at Vermack Road and Chamblee Dunwoody Road at Spalding Drive. Additionally, over 18 centerline miles of roadway on 43 different streets were resurfaced based on priorities set by the 2009 Citywide Pavement Condition Assessment. The City also began an update of pavement conditions by reassessing the conditions of all city streets.

The Dunwoody Police Department implemented the Crime Response Team in 2013. This team consists of one sergeant and three officers whose primary task is to respond to citizens' traffic complaints and crime complaints through the use of Data Driven Approaches to Crime and Traffic Safety. In 2013, Part 1 crime in Dunwoody was down by 4.1%. The department also participated in the Operation Pill Drop Program in partnership with the DEA, whereby citizens brought unused or unneeded prescription medications to the Department for safe disposal. 200 pounds of unused and unneeded drugs were safely disposed of in 2013. The Department has aggressively participated in the targeting of "pill mills" through coordination of efforts with the DEA and other agencies. The reduction in the abuse of prescription drugs is recognized as a method of reducing crime and addictive behaviors in our community.

The Community Development Department continues to implement a variety of major projects outlined in the City's Planning Comprehensive/Master Planning documents. One key item is the zoning code rewrite, of which staff has completed approximately 95% of the Draft Zoning Code Rewrite Text. Another critical accomplishment was the approval of the preliminary plat for Project Renaissance. Additionally, the Department implemented Fire Plan Review and Inspections related to new building permits. Another major project was the acquisition of new aerial imagery for updating our Geographic Information System (GIS).

OVERVIEW OF THE FINANCIAL STATEMENTS

The Management's Discussion and Analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements comprise three components: 1) government-wide financial statements; 2) fund financial statements; and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves. The governmental activities of the City include general government, judicial, public safety, public works, recreation and community development.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the City's assets, liabilities, and deferred inflows, with the difference between the three reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal

periods (e.g., uncollected taxes and earned, but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include general government, judicial, public safety, public works, recreation and community development. The business-type activities of the City include stormwater management fund.

The government-wide financial statements include not only the City itself (known as the primary government), but also a legally separate convention and visitors bureau for which the City is financially accountable. Financial information for this component unit is reported separately from the financial information presented for the primary government itself.

The government-wide financial statements can be found on pages 18 and 19 of this report.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into governmental funds, proprietary funds, or fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the City's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the City's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains nine individual governmental funds. Information is presented separately in the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances for the general and capital projects funds, which are considered to be major funds. Data for the other seven governmental funds (hotel/motel tax fund, motor vehicle excise tax fund, debt service fund, urban redevelopment agency fund, multiple grants fund, confiscated assets fund and Emergency 911 telephone service) are combined into a single aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

The City adopts an annual appropriated budget for all its governmental funds.

The basic governmental fund financial statements can be found on pages 20 through 22 of this report.

Proprietary funds. The City maintains one proprietary fund. Enterprise funds are used to report the same functions presented as *business-type* activities in the government-wide financial statements. The City uses an enterprise funds to account for its stormwater system fund. Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail.

The proprietary fund financial statements can be found on pages 23 through 25 of this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statement because the resources of those funds are not available to support the City's own programs. The City uses an Agency Fund for the collection and remittance of cash appearance bond related activity for municipal court. The accounting of fiduciary funds is much like that used for proprietary funds.

The fiduciary fund financial statement can be found on page 26 of this report.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 27 through 42 of this report.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information, such as, the budgetary comparison schedule for the general fund and hotel/motel tax fund as presented in a generally accepted accounting principal basis in this section. These schedules are intended to demonstrate the City's compliance with the legally adopted and amended budgets. Required supplementary information can be found on page 46 of this report.

The individual fund statements and schedules, referred to earlier, are presented immediately following the required supplementary information. Individual fund statements and schedules can be found on pages 48 through 57 of this report.

Total net position	\$	85,247,278	\$	3,409,570	\$	88,656,848	\$	606,199

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the City, assets exceeded liabilities by \$88,656,848.

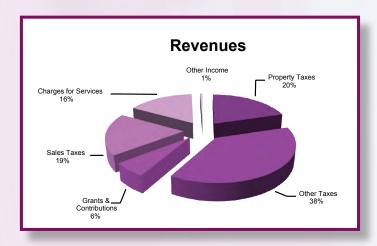

The largest portion of the City's net position, \$61,997,409, reflects its investment in capital assets (e.g., buildings, machinery and equipment roadways, sidewalks, culverts, equipment and signals); less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. The City reports restricted net position of \$2,925,021, which are restricted

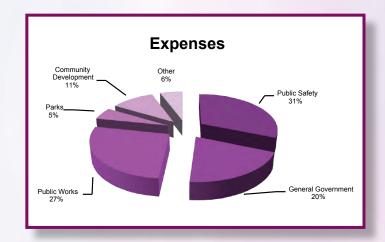

HOST funds to be used on capital projects; restricted seized funds to be used for public safety, and restricted emergency 911 fees to be used for operation of the E911 center. The remaining portion of the City's net position represents net assets of \$23,734,418 that is available to meet the ongoing obligations of the government. The City has current assets of \$30,109,609. These assets include \$15,852,602 of cash and cash equivalents and \$200,000 of investments. The City's capital assets are \$66,842,146. Debt liabilities are \$4,670,681 with another \$232,022 due within a year for land purchased in 2011 that has been refinanced and land purchased in 2012. At the end of the current fiscal period, the City reported positive balances in all net position categories.

CITY OF DUNWOODY - TOTAL PRIMARY GOVERNMENT

Governmental activities. The increase in net position is due to steadily increasing revenue streams over the past three years. Additionally, the City has maintained its efficient model of government to control expenses. The increase in revenues is due primarily to a recovering property tax digest, an increase in capital grants, and an increase in sales tax revenue of approximately \$569,124, \$1,391,504, and \$323,586, respectively. Franchise taxes were \$3,643,706, business occupation taxes were \$2,673,994, and insurance premium taxes were \$2,386,636.

Our most apparent and sizable expenses during the year were \$7,203,617 and \$6,182,605 for the operation of the Dunwoody Police Department and the Public Works Department, respectively. Overall, expenditures increased \$2,239,242 over 2012. This is largely attributable to the continued growth of the public safety system as well as an increase in infrastructure construction and maintenance efforts.

Business-type activities. The decrease in net position of \$215,692 is primarily the result of an intentional use of net assets to fund operating expenses associated with maintaining an aging stormwater system.

Stormwater assessment fees (computed based on a property's impervious surface area) were \$1,837,404; representing virtually all of the revenues in the fund. Repairs to the system accounted for 77% of the operating expenses while depreciation on the assets accounted for 7% of the operating expenses.

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the City's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the City's governmental funds reported combined ending fund balance of \$21,678,647 and increase in fund balance of \$1,327,809. Of this balance, \$13,089,833 is restricted or assigned for capital projects, \$264,619 is nonspendable for prepaids, \$203,996 is restricted or assigned for special purposes and \$8,120,199 is considered unassigned and can be used to meet the near term operating needs of the City.

General Fund. The general fund is the chief operating fund of the City. At the end of the current fiscal year the total fund balance was \$11,461,977 representing an unassigned fund balance of \$8,206,754, restricted HOST funds of \$2,788,116 for capital projects, restricted or assigned funds of \$298,169 for special purposes, and \$168,938 in nonspendable prepaids. Fund balance increased by \$225,145 from 2012, primarily as a result of a reduction in expenditures greater than the reduction in revenues. As a measure of the liquidity, it may be useful to compare unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 54% of total general fund expenditures, while total fund balance represents 75.4% of total general fund expenditures.

Capital Projects Fund. The capital projects fund was set up to account for capital projects managed by the City. During the current year, a total of \$9,574,490 was transferred into the capital projects fund from the general fund. After expenditures of \$7,880,058 and other miscellaneous items, the capital projects fund had an increase in fund balance of \$1,642,324.

GENERAL FUND BUDGETARY HIGHLIGHTS

The City's budget utilized a conservative approach based on the limited information available. Emphasis was given to ensuring financial stability and long-term stability while providing revenue enhancement, financial priorities and discipline.

The City employs an annual mid-year budget process in order to re-align appropriations made during the annual budget process with significant unexpected trends. This ensures adjustments facilitating appropriations are in alignment with expected resources. Differences between the original budget and final amended budget are then resolved via official City Council action.

For fiscal 2013, the City's general fund had a favorable budget variance of \$2,866,604. There was a \$315,861 favorable budget variance for revenues, as well as a \$1,407,301 favorable budget variance for expenditures. The City's actual activity was more favorable than budgeted for most line items, due to a conservative budget approach. Also, contributing to the favorable expense figures was \$575,000 for contingency that was not used in 2013.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital assets. The City's investment in capital assets for its governmental activities as of December 31, 2013, amounts to \$65,235,658 (net of accumulated depreciation). These assets primarily reflect infrastructure assets such as roadways, sidewalks, and signals; land; parks and culture facilities; and the capital investment for police vehicles and other capital related equipment. The City's investment in net capital assets for its business-type activities as of December 31, 2013 amounts to \$1,606,488. These assets reflect culverts and other storm water management assets. The decrease in business-type capital assets results from depreciation of of the storm water management system.

Additional information on the City's capital assets can be found in note 6 on pages 37 and 38 of this report.

Long-term debt. At the end of fiscal year 2013, the City had total debt outstanding of \$4,902,703. The City paid down the debt early in 2013, which included approximately \$708,000 in principal and interest costs. The debt outstanding at December 31, 2013 represents refinancing of debt issued in 2011 for the purchase of the PVC Pipe Farm property. All debt is backed by the full faith and credit of the City.

Additional information on the City's long-term debt can be found in note 7 on pages 38 and 39 of this report.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

All of these factors were considered in preparing the City's budget for the 2014 fiscal year.

- Sustainability of existing services the City has deployed a philosophy of budgetary evaluation which reviews the needs of the City to the standard, which realizes that services and associated costs should not be appropriated if they are not justified as long-term goals of the organization. This philosophy is solidified during the budget process, with a multi-year financial outlook that provides the conduit to evaluate government priorities, realign and diversify revenue structures, and provide the data for decision making for continued financial success.
- Cost of government The operating millage rate cap of 3.04 mills is statutorily set and cannot be changed without a referendum. As part of the financial strategic plan, the

government is committed to a consistent millage rate for property taxes, to facilitate the provision of city services.

- Infrastructure Improvements The City provided substantial capital funding to continue the implementation of the 5-year capital paving plan to address a significant backlog of existing infrastructure deficiencies. Funding was also allocated for intersection improvements, parks, buildings, equipment, roadways, sidewalks, culverts, and signals.
- Economy Impact The City's revenues and expenditures were implemented with a conservative approach to reflect the continued weakness of the economy.
- The City restricts the use of one-time revenues to capital and other one-time projects.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

FOR THE YEAR ENDED DECEMBER 31, 2013

Amounts reported for governmental activities in the statement of activities are different because:	
Net change in fund balances - total governmental funds	\$ 1,327,809
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation expense in the current period.	4,207,136
The net book value of capital assets disposed of during the year.	(171,533)
In the statement of activities, only the gain on the sale of land held for resale is reported, whereas in the governmental funds, the proceeds from the sale increase financial resources. Thus, the change in net position differs from the change in fund balance by the net effect of the cost of land purchased and proceeds from land sold.	(86,530)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	158,057
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. This amount is the net effect of these differences in the treatment of long-term debt.	1,639,339
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.	70,097
Change in net position - governmental activities	\$ 7,144,375
The accompanying notes are an integral part of these financial statements.	_

The accompanying notes are an integral part of these financial statem	nents.	

CITY OF DUNWOODY, GEORGIA

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2013

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the City of Dunwoody, Georgia (the "City") have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the City's accounting policies are described below.

A. Reporting Entity

The City, which was incorporated in 2008, operates under a charter adopted December 1, 2008, as a municipal corporation governed by an elected mayor and a six-member council. The government provides such services as police protection, cultural and recreational activities, community development and public works.

The accompanying financial statements present the City and its component unit, an entity for which the City is considered to be financially accountable. The discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the City.

Discretely Presented Component Units

The Dunwoody Convention and Visitors Bureau has been included as a discretely presented component unit in the accompanying financial statements. The Dunwoody Convention and Visitors Bureau ("Bureau") is fiscally dependent on the City as it does not have the power to levy taxes, determine its own aggregate budget without the approval of the City of Dunwoody, Georgia, or issue bonded debt and the City is required by contract to provide a majority of the operational revenues for the Bureau. Financial information with regard to the Bureau can be obtained from the Bureau's administrative offices at 41 Perimeter Center East, Dunwoody, GA 30346. Separate financial statements for the Dunwoody Convention and Visitors Bureau are not prepared.

Blended Component Unit

The Urban Redevelopment Agency (the "URA") has been included as a blended component unit in the accompanying financial statements. The City appoints its six member board. Although it is legally separate from the City, its sole purpose is to finance construction and acquisitions of the City. The debt and assets of the URA have been reported as a form of the City's debt and assets and all debt service activity is reported as debt service activity of the City. Separate financial statements for the URA are not prepared. The City reports the URA as a nonmajor debt service fund.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government and its component unit. The primary government is reported separately from its discretely presented component unit. The statement of net position includes non-current assets and non-current liabilities. In addition, the government-wide statement of activities reflects depreciation expense on the City's capital assets. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. However, any interfund services provided and used are not eliminated as this process would distort the direct costs and program revenues reported in the various functions.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to those who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

Property taxes, sales taxes, franchise taxes, intergovernmental grants, and investment income associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the City.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenue of the enterprise fund are charges to customers for services provided. Operating expenses for the enterprise fund include the cost of services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

In accordance with GASB Statement No. 33, "Accounting and Financial Reporting for Non-exchange Transactions," the corresponding assets (receivables) in non-exchange transactions are recognized in the period in which the underlying exchange occurs, when an enforceable legal claim has arisen, when all eligibility requirements have been met, or when resources are received, depending on the revenue source.

In accordance with GASB Statement No. 34, major individual governmental funds are reported as separate columns in the fund financial statements.

The City reports the following major governmental funds:

The **General Fund** is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The Capital Projects Fund is used to account for the capital expenditures made by the City.

The City reports the following proprietary fund:

The **Stormwater Fund** is used to account for the charges and expenses of maintaining the City's stormwater infrastructure.

Additionally, the City reports the following fund types:

The **Special Revenue Funds** are used to account for specific revenues, such as E911 revenues, hotel/motel tax revenues, motor vehicle excise tax revenues, and various grants, which are legally restricted to expenditures for particular purposes.

The **Debt Service Funds** are used to account for the resources accumulated and payments made for principal and interest on long term debt of the City.

The **Agency Fund** is used to account for the collection and disbursement of monies by the City's Municipal Court on behalf of other individuals or entities.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Budgets

Formal budgetary accounting is employed as a management control device for the general fund, special revenue funds, and capital projects funds of the City. The governmental funds budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America. Annual operating budgets are adopted for the General Fund, each Special Revenue Fund, and the Debt Service Funds each fiscal year through passage of an annual budget ordinance and amended as required. The City adopts project length budgets for the Capital Projects Fund. During the fiscal year ended December 31, 2013, the original budget was amended through supplemental appropriations. These changes are reflected in the budgetary comparison schedules.

All unencumbered budget appropriations lapse at the end of each year.

E. Cash, Cash Equivalents and Investments

Cash and cash equivalents includes amounts in demand deposits as well as short-term investments with a maturity date within three months of the date acquired by the City. The City pools cash resources of its various funds in order to facilitate the management of cash. Cash applicable to a particular fund is readily identifiable. The balance in the pooled cash accounts is available to meet current operating requirements. Investments of the City are reported at fair value.

F. Receivables

All receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible.

G. Interfund Receivables and Payables

Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year as well as all other outstanding balances between funds are reported as "due to/from other funds."

H. Prepaid Items

Payments made to vendors for services that will benefit periods beyond DECEMBER 31, 2013, are recorded as prepaid items in both government-wide and fund financial statements. These items are accounted for using the consumption method.

I. Capital Assets

Capital assets, which include improvements, machinery and equipment, and infrastructure assets, are reported in the government-wide financial statements. Capital assets are defined by the City as assets with an initial, individual cost of more than \$10,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

I. Capital Assets (Continued)

The City has reported all infrastructure that it currently owns and has a responsibility for maintaining. Donated capital assets are recorded at estimated fair market value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives is not capitalized.

Capital assets of the City are depreciated using the straight line method over the following useful lives:

Buildings	30 years
Improvements	15-40 years
Machinery & Equipment	3-20 years
Infrastructure	7-60 years
Intangible assets	2-4 years

J. Restricted Assets

Tax revenues from the Homestead Option Sales Tax (HOST), police seizures, bonding escrows, and unspent proceeds from the City's notes payable are classified as restricted assets on the fund balance sheet and the HOST funds, police seizures, and bonding escrows are shown as restricted net position on the statement of net position because their use is restricted by Georgia law or applicable debt agreements.

K. Deferred Outflows / Inflows of Resources

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The City has only one type of item, which arises only under a modified accrual basis of accounting that qualifies for reporting in this category. Accordingly, the item, unavailable revenue, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from property taxes, intergovernmental revenues, and charges for services and these amounts are deferred and will be recognized as an inflow of resources in the period in which the amounts become available.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

L. Compensated Absences

It is the City's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for non-vesting accumulated rights to receive sick pay benefits since the City does not have a policy to pay any amounts when employees separate from service with the City. All vacation pay is accrued when incurred in the government-wide financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

M. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net position.

In the fund financial statements, governmental fund types recognize the face amount of the debt issued as other financing sources and the repayment of debt as debt service expenditures.

N. Fund Equity

Fund equity at the governmental fund financial reporting level is classified as "fund balance." Fund equity for all other reporting is classified as "net position."

Fund Balance – Generally, fund balance represents the difference between the assets and liabilities under the current financial resources measurement focus of accounting. In the fund financial statements, governmental funds report fund balance classifications that comprise a hierarchy based primarily on the extent to which the City is bound to honor constraints on the specific purpose for which amounts in those funds can be spent.

Fund balances are classified as follows:

Nonspendable – Fund balances are reported as nonspendable when amounts cannot be spent because they are either (a) not in spendable form (i.e., items that are not expected to be converted to cash) or (b) legally or contractually required to be maintained intact.

Restricted – Fund balances are reported as restricted when there are limitations imposed on their use either through enabling legislation adopted by the City or through external restrictions imposed by creditors, grantors, laws or regulations of other governments.

Committed – Fund balances are reported as committed when they can be used only for specific purposes pursuant to constraints imposed through a resolution of the City Council. Only the City Council may modify or rescind the commitment.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

N. Fund Equity (Continued)

Assigned – Fund balances are reported as assigned when amounts are constrained by the City's intent to be used for specific purposes, but are neither restricted nor committed. The Fund Balance Policy, as adopted by the City Council, delegates the authority to the City's management, the City Manager, to assign fund balance for particular purposes.

Unassigned – Fund balances are reported as unassigned as the residual amount when the balances do not meet any of the above criterion. The City reports positive unassigned fund balance only in the general fund.

The City's policy is to obtain and then maintain a minimum General Fund fund balance reserve equal to 33% of current expenditures.

Flow Assumptions – When both restricted and unrestricted amounts of fund balance are available for use for expenditures incurred, it is the City's policy to use restricted amounts first and then unrestricted amounts as they are needed. For unrestricted amounts of fund balance, it is the City's policy to use fund balance in the following order: (1) Committed, (2) Assigned, (3) Unassigned.

Net Position – Net position represents the difference between assets and liabilities in reporting which utilizes the economic resources measurement focus. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used (i.e., the amount that the City has spent) for the acquisition, construction or improvement of those assets. Net position is reported as restricted using the same definition as used for restricted fund balance as described in the section above. The remaining portion of net position is reported as unrestricted.

The City applies restricted resources first to fund outlays for which both restricted and unrestricted net position is available.

O. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 2. RECONCILIATION OF GOVERNMENT-WIDE FINANCIAL STATEMENTS AND FUND FINANCIAL STATEMENTS

A. Explanation of Certain Differences Between the Governmental Fund Balance Sheet and the Government-wide Statement of Net Position

The governmental fund balance sheet includes a reconciliation between fund balance – total governmental funds and net position – governmental activities as reported in the government-wide statement of net position. One element of that reconciliation explains that "long-term liabilities are not due and payable in the current period and therefore are not reported in the funds." The details of this \$5,098,777 difference are as follows:

Bonds payable	\$	(4,902,703)
Accrued interest payable		(6,989)
Compensated absences (i.e., vacation)	<u> </u>	(189,085)
Net adjustment to reduce fund balance - total governmental funds to arrive		
at net position - governmental activities	\$	(5,098,777)
	<u> </u>	

B. Explanation of Certain Differences Between the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-wide Statement of Activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between net change in fund balances – total governmental funds and change in net position of governmental activities as reported in the government-wide statement of activities. One element of that reconciliation explains that "Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense." The details of this \$4,207,136 difference are as follows:

Capital outlay	\$	6,446,003
Depreciation expense		(2,238,867)
Net adjustment to increase net change in fund balances - total governmental funds to arrive at change in net position – governmental activities	\$	4.207.136
to anno at onungo in not position governmental activities	=	1,207,100

Another element of that reconciliation explains that "The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position." The details of this \$1,639,339 difference are as follows:

Principal retirement of long-term debt	\$	1,639,339
Net adjustment to increase <i>net change in fund balances - total governmental</i> funds to arrive at change in <i>net position - governmental activities</i>	\$	1.639.339
Tarias to arrive at sharige in het position governmental activities	Ψ	1,000,000

NOTE 2. RECONCILIATION OF GOVERNMENT-WIDE FINANCIAL STATEMENTS AND FUND FINANCIAL STATEMENTS (Continued)

B. Explanation of Certain Differences Between the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-wide Statement of Activities (Continued)

Another element of the reconciliation states that "some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds." The details of this \$70,097 difference are as follows:

Compensated absences	\$ 31,405
Accrued interest	38,692
Net adjustment to increase net change in fund balances - total governmental funds	
to arrive at change in net position – governmental activities	\$ 70,097

NOTE 3. LEGAL COMPLIANCE – BUDGETS

The budget is officially adopted by the governing body prior to the beginning of its fiscal year, or a resolution authorizing the continuation of necessary and essential expenditures to operate the City will be adopted. The legal level of budgetary control (i.e., the level at which expenditures may not legally exceed appropriations) is the department level, within the fund.

Transfers of appropriations within a department budget or within a non-departmental expenditure category require only the approval of the Finance Director. Increases in appropriations in a departmental budget or in a non-departmental expenditure category, require approval of the governing body in the form of amendments to the budget ordinance.

Excess Expenditures Over Appropriations

For the year ended December 31, 2013 expenditures exceeded the budget in the Hotel/Motel Tax Fund by \$554. The excess was funded by greater than anticipated revenues.

Deficit Fund Equity

The Grant Fund had a deficit fund balance at December 31, 2013. The fund deficits will be reduced through anticipated revenues, recognition of unavailable revenues, and General Fund appropriations, as needed.

NOTE 4. DEPOSITS AND INVESTMENTS

As of December 31, 2013 the City of Dunwoody had the following investments:

Investment	Maturities	Fair Value		
Certificates of deposit	1 - 5 years	\$ 200,000		

Interest Rate Risk: The City does not have a formal policy that addresses interest rate risk. At December 31, 2013 the above investments were subject to interest rate risk. Interest rate risk is the risk that a government may face should changes in interest rates affect the fair value of its investments.

Credit Risk: The City does not have a formal policy that addresses credit risk aside from adherence to State statutes of investments. State statutes authorize the City to invest in the following: (1) obligations of the Georgia or any other state; (2) obligations of the United States; (3) obligations fully insured or guaranteed by the United States government or one of its agencies; (4) obligations of any corporation of the United States government; (5) prime bankers' acceptances; (6) the State of Georgia local government investment pool; (7) repurchase agreements; and (8) obligations of any other political subdivisions of the State of Georgia.

Custodial Credit Risk – Deposits: Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. State statutes require all deposits and investments (other than federal or state government instruments) to be collateralized by depository insurance, obligations of the U.S. government, or bonds of public authorities, counties, or municipalities. As of December 31, 2013, all of the City's bank balances were insured and collateralized as defined by state statues and GASB.

NOTE 5. RECEIVABLES

Property taxes are levied on property values assessed as of January 1. The City contracts with DeKalb County to bill and collect City of Dunwoody property taxes. The taxes are levied by August 1 based on the assessed value of property as listed on the previous January 1 and are due on November 15 of each year, with a lien date of January 1 of the following year. Property taxes are recorded as receivables and unavailable revenues when assessed. Revenues are recognized when available. Receivables at December 31, 2013, for the City's individual major funds and aggregate nonmajor funds, including any applicable allowances for uncollectible accounts are as follows:

	Nonmajor General Governmental		St	ormwater		
Receivables:						
Accounts	\$	7,642	\$	167,947	\$	99,024
Taxes		5,098,571		150,007		-
Intergovernmental				154,944		
Less allowance for						
uncollectibles		(28,401)	<u> </u>	-		(63,490)
Net total receivable	\$	5,077,812	\$	472,898	\$	35,534

NOTE 6. CAPITAL ASSETS

Capital asset activity for the City for the period ended December 31, 2013 is as follows:

GOVERNMENTAL ACTIVITIES	Beginning Balance	Increases	Decreases	Transfers	Ending Balance
Capital assets, not being depreciated:					
Land	\$ 15,101,016	\$ 1,811,059	\$ -	\$ 100,301	\$ 17,012,376
Construction in progress	1,569,628	4,037,621	(97,411)	(1,301,087)	4,208,751
Total	16,670,644	5,848,680	(97,411)	(1,200,786)	21,221,127
Capital assets, being depreciated:					
Buildings	728,244	-	-	-	728,244
Improvements	4,080,049	37,744	-	17,462	4,135,255
Machinery and equipment	4,287,419	559,579	(124,613)	-	4,722,385
Infrastructure	43,731,966	-	(73,597)	1,066,593	44,724,962
Intangible assets	<u>-</u>			116,731	116,731
Total	52,827,678	597,323	(198,210)	1,200,786	54,427,577
Less accumulated depreciation for:					
Buildings	(190,101)	(62,279)	-	-	(252,380)
Improvements	(821,282)	(325,066)	-	-	(1,146,348)
Machinery and equipment	(2,662,387)	(572,276)	109,716	-	(3,124,947)
Infrastructure	(4,624,497)	(1,247,236)	14,372	-	(5,857,361)
Intangible assets	<u> </u>	(32,010)	<u> </u>		(32,010)
Total	(8,298,267)	(2,238,867)	124,088		(10,413,046)
Capital assets, net depreciation	44,529,411	(1,641,544)	(74,122)		44,014,531
Governmental activities capital assets, net	\$ 61,200,055	\$ 4,207,136	\$ (171,533)	\$ -	\$ 65,235,658

BUSINESS-TYPE ACTIVITIES	eginning Balance	Ir	ncreases	Decre	ases	Ending Balance
Capital assets, being depreciated: Infrastructure	\$ 2,355,082	\$	-	\$		\$ 2,355,082
Less accumulated depreciation for: Infrastructure	(601,605)		(146,989)			(748,594)
Business-type activities capital assets, net	\$ 1,753,477	\$	(146,989)	\$		\$ 1,606,488

Depreciation expense was charged to functions/programs of the City as follows:

Governmental activities:	
General government	\$ 274,272
Public safety	350,907
Public works	1,301,987
Culture and recreation	306,012
Community development	5,689
Total depreciation expense - governmental activities	\$ 2,238,867
Business-type activities:	
Stormwater	\$ 146,989

NOTE 6. CAPITAL ASSETS (Continued)

Dunwoody Convention and Visitors Bureau

	•	nning ance	Incr	eases	Decre	ases	Ending Balance
Capital assets, being depreciated: Machinery and equipment	\$	14,500	\$	-	\$	-	\$ 14,500

Business-type activities capital assets, net	\$	10,573	\$	(3,625)	\$	<u>-</u>	\$ 6,948

NOTE 7. LONG-TERM DEBT

Bonds Payable

During July 2012, the City Urban Redevelopment Agency issued \$1,785,000 of Series 2012A general obligation bonds. The 2012A bonds were issued to repay the principal balance outstanding on a note payable, which was being utilized to finance the purchase of 16.86 acres of land. Monthly payments of \$9,031, including interest at a rate of 2.00% began in September 2012 and will continue through August 2017.

Fiscal year December 31,	Principal	Interest	Total
2014	\$ 75,314	\$ 33,052	\$ 108,366
2015	76,834	31,532	108,366
2016	78,385	29,981	108,366
2017	1,456,468	19,110	1,475,578
	\$ 1,687,001	\$ 113,675	\$ 1,800,676

During July 2012, the City Urban Redevelopment Agency issued \$3,520,000 of Series 2012B general obligation bonds. The 2012B bonds were issued to repay the principal balance outstanding on a note payable, which was being utilized to finance the purchase of 16.86 acres of land. Monthly payments began September 1, 2012 and will continue through August 2019. The bonds are variable interest bonds, where the interest is calculated at the Daily LIBOR rate plus 135 base points on the basis of the actual days elapsed over a 360-day year. The interest rate may not exceed 12% per annum. At December 31, 2013 the interest rate was 1.5166%.

Fiscal year December 31,	Principal	Interest	Total
2014	\$ 158,048	\$ 47,674	\$ 205,722
2015	160,461	45,260	205,721
2016	162,912	42,810	205,722
2017	165,400	40,322	205,722
2018	167,926	37,793	205,721
2019	2,400,955	23,774	2,424,729
	\$ 3,215,702	\$ 237,635	\$ 3,453,337

NOTE 7. LONG-TERM DEBT (Continued)

Changes in Long-Term Liabilities

The following is a summary of long-term debt activity of the City for the period ended December 31, 2013:

	Beginning Balance		Additions		Reductions	Ending Balance		Due Within One Year	
Governmental Activities:					\				
Notes payable	\$	1,411,390	\$	-	\$ (1,411,390)	\$	-	\$	-
Bonds payable		5,130,652		-	(227,949)	4,90	2,703		232,022
Compensated absences	<u> </u>	220,490		236,129	(267,534)	18	39,085		180,698
Governmental activities long-term liabilities:	\$	6,762,532	\$	236,129	\$ (1,906,873)	\$ 5,09	01,788	\$	412,720

For governmental activities, compensated absences are generally liquidated by the general fund.

NOTE 8. INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS

The composition of interfund balances as of December 31, 2013 is as follows:

Receivable Entity	Payable Entity	Amount
General Fund	Nonmajor governmental funds	\$ 94,221
Nonmajor governmental funds	General Fund	1,033
Nonmajor governmental funds	Nonmajor governmental funds	3,500
		\$ 98,754

All interfund balances resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

Due to/from primary government and component units:

Receivable Entity	Payable Entity	Amount
Component Unit - Convention	Primary government – Nonmajor	
Visitors Bureau	governmental funds	\$ 119,655

Interfund transfers:

Transfers In	Transfers Out	Amount
General Fund	Nonmajor governmental funds	\$ 1,334,286
Capital Projects Fund	General Fund	9,574,490
Nonmajor governmental funds	General Fund	1,274,759
Nonmajor governmental funds	Capital Projects Fund	68,931
Nonmajor governmental funds	Nonmajor governmental funds	456,208
		\$ 12,708,674

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and (2) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

NOTE 9. OPERATING LEASES

The government leases the office facilities under non-cancelable operating leases. The City accrues rent expense in an amount such that the total rent expense under the lease is recognized ratably over the lease term. Rent expense for this lease was \$403,711 for the fiscal period ended December 31, 2013.

The future minimum lease payments for this lease are as follows:

2014	\$ 509,249
2015	520,815
2016	532,630
2017	544,692
2018	557,002

187,044 3 2,851,432

NOTE 10. COMMITMENTS AND CONTINGENT LIABILITIES

Fiscal year December 31.

2019

The government is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of management and legal counsel, the resolution of these matters will not have a material adverse effect on the financial condition of the City.

The City has entered several public/private contractual partnerships for outsourced services and operations. Through these contracts with private companies, an array of operational services are provided via outsourcing. These contracts are an operating contract for which the City is continually monitoring its outsourcing needs as compared to providing services in-house. Currently, these contracts are approximately \$3.8 million annually. The contracts were bid for four annual service periods and run through the year ending December 31, 2015.

For the fiscal year ended December 31, 2013, construction commitments on uncompleted contracts were \$933,936.

The City employed encumbrance accounting during the period; however, there were no encumbrances outstanding at December 31, 2013.

NOTE 11. DEFINED CONTRIBUTION PENSION PLAN

The City of Dunwoody offers two retirement plans for City employees. The 401(a) plan is a defined contribution plan established and administered by Dunwoody for all full-time employees. City Council has the authority to establish and amend the plan provisions as well as the contribution for the plan. The City contributes 10% of each employee's compensation each pay period. Employees are eligible to participate on the first day of the month following thirty days of employment, and they are vested in contributions after one year of service. At December 31, 2013, there were 65 employees participating in the plan with total contributions of \$405,353.

The City also contributes the Social Security withholding amount (6.2% for 2013) to a social security replacement plan for each eligible employee. All participants are fully vested in their social security replacement plan at all times. At December 31, 2013, there were 65 employees participating in the plan with total contributions of \$242,667.

NOTE 12. JOINT VENTURE

Under Georgia law, the City, in conjunction with other cities around the Metropolitan Atlanta Georgia area, is a member of the Atlanta Regional Commission (ARC) and is required to pay annual dues thereto, which DeKalb County has paid on behalf of the City of Dunwoody. Membership in ARC is required by the Official Code of Georgia Annotated (OCGA) Section 50-8-34, which provides for the organization structure of ARC. ARC Board membership includes the chief elected official of each county and municipality of the area. OCGA 50-8-39.1 provides that the member governments are liable for any debts or obligations of the ARC. Separate financial statements may be obtained from ARC, 40 Courtland Street NE, Atlanta, Georgia 30303.

NOTE 13. HOTEL/MOTEL LODGING TAX

The City has levied a 5% lodging tax. The Official Code of Georgia Annotated 48-13-51 requires that all lodging taxes levied of 3% or more be expended or obligated contractually for the promotion of tourism, conventions, or trade shows. During the period ended DECEMBER 31, 2013, the City received \$2,048,049 in hotel/motel taxes. Of this amount, \$819,221, or 40%, was used for the promotion of tourism, conventions, or trade shows.

NOTE 14. MOTOR VEHICLE EXCISE TAX

The City has levied an excise tax on the rental of motor vehicles. The Official Code of Georgia Annotated 48-13-93 requires that all motor vehicle excise taxes be expended or obligated contractually, in accordance with the City's ordinance, for the acquisition, construction, renovating, improving, maintenance and equipping of pedestrian walkways, installation of traffic lights, and street lights associated with public safety facilities or public improvements for sports and recreational facilities. During the period ended December 31, 2013, the City received \$105,409 in motor vehicle excise taxes. Of this amount, \$105,409, or 100%, was used for these purposes.

NOTE 15. RISK MANAGEMENT

The City is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City has joined together with other municipalities in the state as part of the Georgia Interlocal Risk Management Agency Property and Liability Insurance Fund, a public entity risk pool currently operating as common risk management and insurance programs for member local governments.

As part of this risk pool, the City is obligated to pay all contributions and assessments as prescribed by the pools, to cooperate with the pool's agents and attorneys, to follow loss reduction procedures established by the funds, and to report as promptly as possible, and in accordance with any coverage descriptions issued, all incidents which could result in the funds being required to pay any claim of loss. The City is also to allow the pool's agents and attorneys to represent the City in investigation, settlement discussions and all levels of litigation arising out of any claim made against the City within the scope of loss protection furnished by the funds.

The funds are to defend and protect the members of the funds against liability or loss as prescribed in the member government contract. The fund is to pay all cost taxed against members in any legal proceeding defended by the members, all interest accruing after entry of judgment, and all expenses incurred for investigation, negotiation or defense.

Settled claims have not exceeded the coverages in the last three years.

The City carries commercial insurance for other risks of losses. For insured programs, there have been no significant reductions in insurance coverage. Settlement amounts have not exceeded insurance coverage in the last three years.

NOTE 16. CHANGE IN REPORTING ENTITY

The City has determined the following change in reporting entity is desirable to report the Confiscated Assets Fund as a special revenue fund, which has been historically reported in the activities of the General Fund in prior years' annual reports. The adjustment to report the Confiscated Assets Fund as a special revenue fund resulted in changes to beginning General Fund balance as follows:

Fund balance, General Fund, as previously reported Restatement to separately report Confiscated Assets Fund

Beginning fund balance, General Fund, restated

\$ 11,386,327 (149,495)

\$ 11,236,832

The change described above also affected the beginning fund balance of nonmajor governmental funds as follows:

Fund balance, nonmajor governmental funds, as previously reported Restatement to separately report Confiscated Assets Fund

\$ 904,210 149,495

Beginning fund balance, nonmajor governmental funds, restated

\$ 1,053,705

NONMAJOR GOVERNMENTAL FUNDS

Hotel Motel Tax Fund - To account for the 5% lodging tax levied in the City, which is restricted by State law.

Motor Vehicle Excise Tax Fund – To account for the revenues and expenditures related to the excise taxes collected on motor vehicles, which is restricted by State law.

E911 Fund - To account for the collection and expenditures of E911 fees, which is restricted by State law.

Grants Fund – To account for the funds received from external sources as they relate to grants awarded to the City. Matching funds, which are the responsibility of the City, are also recorded within this fund.

Confiscated Assets Fund - To account for monies forfeited by criminals that are prosecuted for narcotics or vice activity.

Urban Redevelopment Agency Fund – To account for various land purchases and development projects.

Debt Service Fund – To account for the debt service expenditures of the City.

STATISTICAL INFORMATION

STATISTICAL SECTION

This part of the City of Dunwoody's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health.

	rugi
Financial Trends	. 61
These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.	
Revenue Capacity	. 64
These schedules contain information to help the reader assess the City's most significant local revenue source, property tax.	
Debt Capacity	. 69
These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.	
Demographic and Economic Information	. 71
These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place.	
Operating Information	. 73
These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs.	

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial report. The City's first period of operation is the fiscal period ended 2009; therefore, data prior to 2009 is not available.

Total overlapping debt	\$	181,232,000			\$ 26,224,270
Total direct and overlapping debt	\$	186,134,703			\$ 31,126,973

Source: Assessed value data used to estimate applicable percentages and debt outstanding obtained from DeKalb County's Finance Department.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the City. This process recognizes that, when considering the government's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.

(1) The percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of the County's taxable assessed value that is within the City's boundaries and dividing it by the County's total taxable assessed value.

William J. Mulcahy, CIA

Mayor and City Council, City of Dunwoody and City of Dunwoody Audit Committee Monday July 14, 2014

Internal Audit work in this quarter -

- a. Continuous Monitoring of Financial Report.
- b. Contract Compliance.
- c. Internal Audit Plan for 3rd and 4th quarters of 2014

Continuous Monitoring of Financial Report - As part of the 2014 Internal Audit Plan, I performed the procedures listed in the scope section below on the Financial Report through May 31, 2014.

Scope -

- a. Reviewed for reasonableness the Financial Report through May 31, 2014, noting reasonableness.
- b. Read the Memorandum dated June 30, 2014 subject: YTD Financial Report for May 31, 2014, noting reasonable and understandable explanations.
- c. Reviewed large or unusual variations from budget and prior year. I received satisfactory explanations on all such variations.

Audit Summary - In connection with the scope of my work described above, of the YTD Financial Report through May 31, 2014, I identified no city expenditures or other financial matters that I as the internal auditor determined to be not in compliance with (a) the provisions of the charter, (b) the applicable city budget, and (c) applicable ordinances, resolutions, or other actions duly adopted under the provisions of the charter.

Contract Compliance - As part of the 2014 Internal Audit Plan, I performed the procedures listed below in the scope section on the City of Dunwoody's compliance with its Contract Compliance Policy.

Scope -

- a. Reviewed for reasonableness the City of Dunwoody, Finance and Administration Department, Purchasing Policies (32 page manual) noting the policies provide for segregation of duties between ordering an item, and the approval by Department Head, Accounts Payable, Purchasing, Finance Director, City Manager and City Council. Also noted contracts over \$50,000 require City Council approval.
- b. Obtained and read City of Dunwoody Ordinance 2013-01-01 which adopted and approved revised Purchasing Policies effective January 28, 2013
- c. Obtained the list of checks issued and selected five contract payments to vendors at auditor's judgment for the detailed review.

1189 Dunwoody Village Drive, Dunwoody, GA 30338-2323, 404-290-2441, bill@billmulcahy.com, www.billmulcahy.com

- d. For the five contract payments selected, I obtained satisfactory audit documentation of appropriate bid, contract, rating matrix, quote and or solicitation of quotes in line with the dollar amount of the contract.
- e. For the five contract payments selected, I obtained satisfactory audit documentation of compliance with the scope of services required by the contract.

Audit Summary - In connection with the scope of my work described above, of the City of Dunwoody's Contract Compliance, I identified no city expenditures or other financial matters that I as the internal auditor determined to be not in compliance with

- a. the provisions of the charter
- b. the applicable city budget, and
- c. applicable ordinances, resolutions, or other actions duly adopted under the provisions of the charter.

The controls and procedures supporting contract compliance were deemed adequate. In addition the policies which provide internal controls for the segregation of duties were being followed in all contracts selected in the detailed test.

Internal Audit plans for remaining 2014 quarters -

- a. 3rd Quarter 2014 Public Works, Quality Control on Paving: This report will provide comments on processes for determining roads to be paved as well as a review of the quality control procedures for roads that have been paved.
- b. 4^{th} Quarter 2014 Procurement Card: This report will provide comments on the pcard policy, oversight of the policy and compliance with the policy, same as the prior years.

Respectfully submitted, William J. Mulcahy, CIA City Internal Auditor City of Dunwoody
