MEMORANDUM

To: Honorable Mayor and City Council
From: Billy Grogan, Chief of Police
Date: September 15, 2015
Subject: CAD to CAD Interface Update

ITEM DESCRIPTION

The City of Dunwoody contracted with ChatComm several years ago to provide 911 call taking and dispatch services as our Public Safety Answering Point (PSAP). As an enhancement to that service, the City of Dunwoody engaged in a CAD to CAD Interface project to provide for the electronic transfer of Fire and EMS data from ChatComm 911 to DeKalb County 911.

UPDATE

The Interface is scheduled to be loaded into CAD on September 9, 2015. At that time, a test of the connectivity will occur. As of the writing of this memo, a live testing of the CAD to CAD Interface is scheduled for September 15, 2015. If all goes well with the live test, the CAD to CAD Interface will be activated.
