

Survey of DHS Students for AES Park Amenities

Dunwoody High School Youth City Council

Methodology

Process for Administering the Survey

Focus Groups

Members created the survey from focus groups.

Post-it notes were used for students to write down what they would want to see in a new park.

The survey was created from student responses

Survey Settings

December 20, 2016 at 11 a.m.

Reasons for choosing the specific time.

3 hours in first period exam

Members were given 15 minutes to write down what they would want to see in a new park.

Survey Results

Youth City Council Survey

19. Safety/Security	A	B	C	D	E
20. Water Fountains	A	B	C	D	E

Possible Park Layout

Looking Ahead

Potential Problems and Challenges

- Parking
 - At the current building, there are roughly 40 parking spaces.
- Traffic
 - At AM and PM rush hours, Roberts Drive tends to experience mild (and sometimes severe) traffic jams.
- Noise and Neighborhoods
 - The Austin site is circled by one neighborhood and is across the street from two more.
 - Proximity to neighborhoods is not necessarily a drawback, however.
- Flooding
 - Much of the proposed park area is prone to flooding

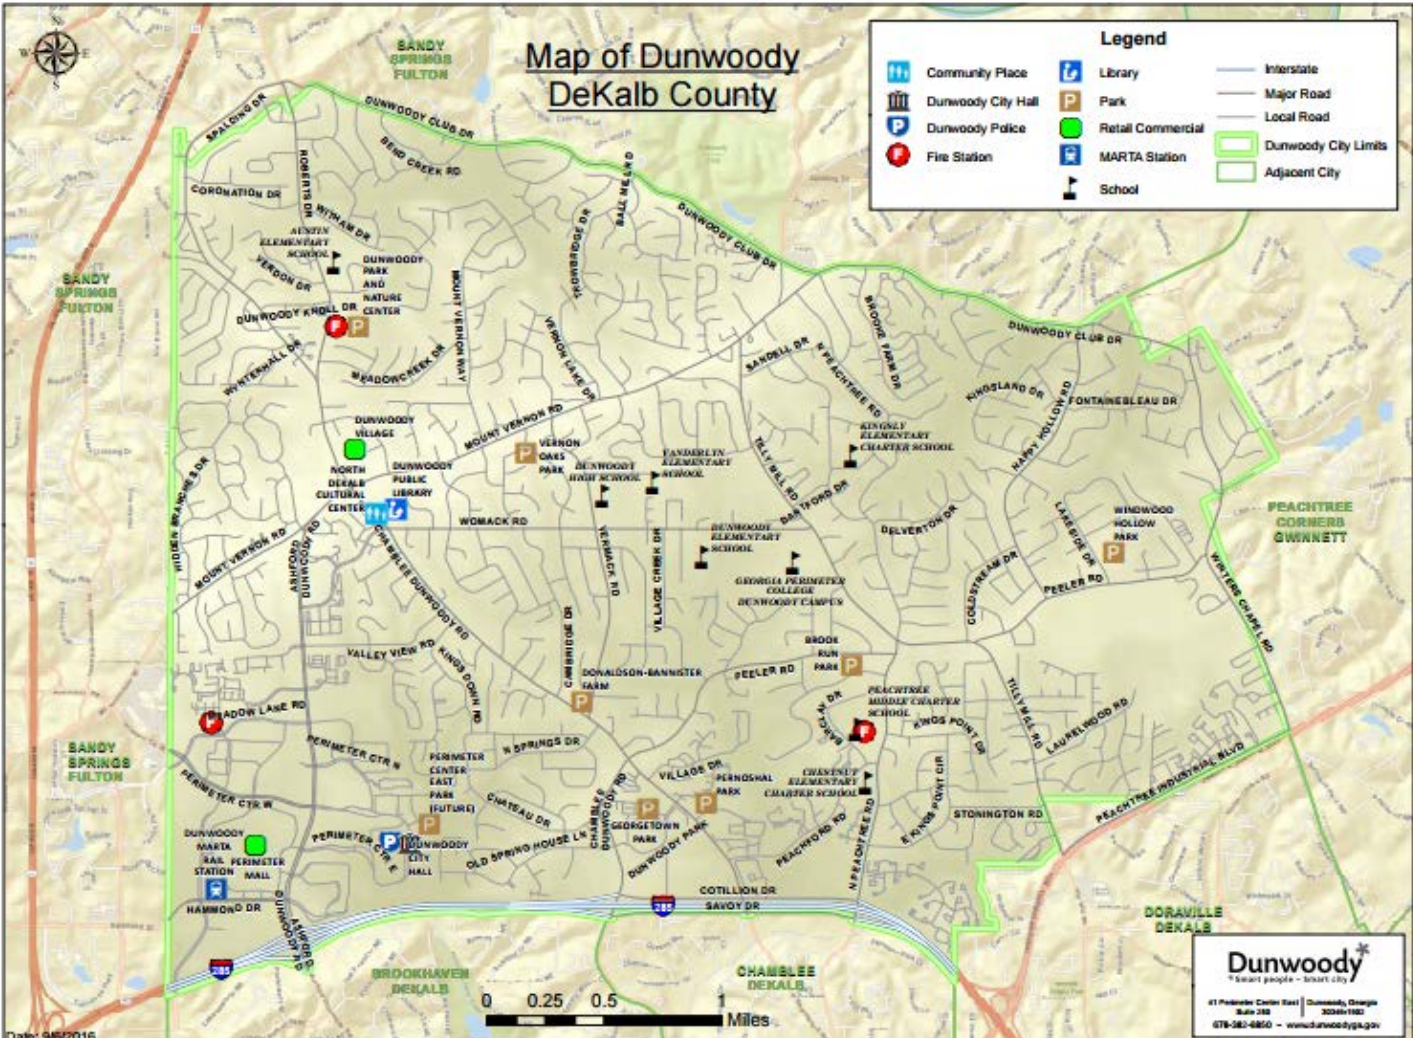

What We're Excited About!

- Access to more of the Dunwoody community
 - Entirely different council district than Brook Run Park
 - Proximity to new neighborhoods, churches, schools, commercial areas
- Features attract a variety of ages and interests
 - Addition of food truck nights and walking trails at Brook Run
- High school involvement
 - Foster relationship between youth and community
 - Chamblee Dunwoody/Roberts Dr commercial area frequented by students
