Why are you interested in serving on a board / commission / committee?
Joining the Sustainability Committee will help me engage more in the civic life of Dunwoody City. This opportunity will not only help me gain new expertise and skills, but will also help me contribute back to my community and leave a change that will be sustainable to the city and the people.
What experience do you possess that would be of benefit to a board / commission / committee?
Leadership and fundraising skills in which I founded a fundraising campaign, Melody for Peace, to aid dislocated families and the needy in the Middle East. Also, I helped with developing the Domestic Violence Resource and Health Fair with Atlanta Victim Assistance, Inc. for victims of sexual assaults and harassment. In addition, I came from a whole different world, Iraq, that not only made me bilingual in Arabic, but exposed me to major social issues and its effect on the people and communities.

Applicant's Name: Matthew Blake McLain	
Applicant's Signature:	Date: 10/10/2017

Born in Griffin, Georgia, I moved to Dunwoody little over a couple of years ago and worked here at the local Tin Lizzy's a year prior to moving here. I now work for Apple as an AppleCare Advisor where I provide Tech Support and Troubleshooting services to customers from all over the United States. I just graduated with honors from Georgia State University with an Associate's Degree in Social Work, and am now pursuing a Bachelor's Degree in Public Policy with a concentration in Public Management and Governance, where I plan on graduating in the Fall of 2018. After graduation, I plan on immediately pursuing a Master's Degree at either Georgia State University or Georgia Tech. In addition, I am currently working with my manager at Apple to gain experience within Apple's policy division, where I plan on learning about Cyber Policy, International Policy, Trade Policy, Sustainability Policy, etc. Also, I volunteer with BH Technology Group, a nonprofit that provides technology-centered education and resources to groups that live in Atlanta and the surrounding areas.

On a personal note, I enjoy life with my significant other of three years, two cats, and dog. I am passionate about music, I sing, write, and play piano. I love to cook, and our home has lately taken to a few months of eating a plant-based diet (with the exception of our three pets), so I am learning new things about food daily. In addition, I am very tech savvy. Working at Apple has afforded me a deep and thorough knowledge of Apple's operating systems and hardware. Also, I am skilled in hardware assembly and replacement of Windows computers, as well as software troubleshooting and repair. My favorite thing to do in the world is learn, therefore I am a non fiction fanatic, and spend nearly all of my free time either reading, doing homework, going to the gym, or watching TED Talks and documentaries.

Though my main focus is technology, I believe strongly in the intersection between technology and sustainability, and that our future as human beings will only be further enriched if we learn to harness both to our benefit. That said, I believe this would be an amazing learning experience for me and that, if I get the opportunity, a way for me to serve our community by providing unique perspectives that I believe I have to offer.
