MEMORANDUM

To: Mayor and City Council

From: Paul Leonhardt, Deputy Community Development Director

Date: August 10, 2026

Subject: Vape Shop Text Amendment

ITEM DESCRIPTION

This item proposes new code language that defines vape shops as a new use category and updates the use tables of the City's zoning districts.

UPDATE AUGUST 10, 2026

During its May 11, 2026 meeting, the City Council tabled the agenda item and directed the staff to propose an alternative regulatory scheme. The staff has since compiled an alternative approach that treats vape shops similar to liquor stores. The proposed ordinance allows vape shops in commercial districts that allow general retail sales and imposes two types of distance requirements: 600 feet from daycare facilities, schools, and places of worship and 1,500 feet from existing vape shops and gas stations. The 1,500-foot requirement prevents clustering of stores selling vapes and other smoking products in close proximity of one another.

Comparison to liquor stores:

	Liquor Stores - Existing Rules	Vape Shops - Proposed rules
Distance from Other Liquor Stores	1,500 Feet	-
Distance from Other Vape Shops and Gas Stations	-	1,500 Feet
Distance from Daycare Facilities/Schools/Places of Worship	600 Feet from Daycare and Schools / 300 feet from Places of Worship (Many Places of Worship Include Daycare or Schools)	600 Feet

Distance requirements are commonly used to regulate vape shops, including recent ordinances in Smyrna, Atlanta, and Johns Creek. The 600-foot and 1,500 distance requirements are the same measurements used by the City of Johns Creek.

DISCUSSION

The City Council passed a 90-day temporary moratorium on new vape shops during its February 9 meeting, directing the staff to draft a text amendment to define vape shops and propose appropriate regulations.

Electronic cigarettes (vapes) have become an increasingly popular method of consuming nicotine products and other recreational substances. These devices use a battery to heat and aerosolize liquid nicotine or other liquids that a user then inhales into their lungs. Vapes come in a variety of colorful designs and in fruit flavors such as “berry rush” or “strawberry bubble gum” that can be attractive to children and teenagers. While vaping is illegal for anyone under the age of 21, vape use amongst high school students is now over four times as prevalent as cigarette smoking with 7.8% of high school students and 3.5% of middle school students currently using e-cigarettes (CDC, 2024).

Alternative nicotine products (pouches, lozenges, stripes, etc.), are another increasingly popular amongst children and teenagers. Users place these products between their gums and lips, where the product releases nicotine which gets absorbed by the membranes of the mouth. Amongst high school, 2.4% report current usage of nicotine pouches and 1.4% report current usage of other oral nicotine products. Amongst middle school students, 1.0% report current usage of nicotine pouches and 0.9% report current usage of other oral nicotine products (CDC, 2024). Two limitations of the CDC study likely lead to these numbers representing undercounts. First, the survey data is self-reported and subject to desirability and recall biases. Second, the survey only asked for current usage; not for usage within the past year.

Electronic cigarettes and alternative nicotine products are mainly sold at dedicated vape shop stores and at convenience stores. Vape shops often have colorful and flashy branding designed to draw potential customers in. In addition, these stores often sell a variety of water pipes, also known as hookah or bong pipes, which are used to smoke tobacco, marijuana, and other substances. The proposed ordinance also includes these smoking devices to capture the typical product range of these stores.

The proposed ordinance defines vape shops as those retail stores that derive 25% or more of their retail sales or dedicate 25% or more of their interior floor area to the display, sale, or rental of alternative nicotine products, consumable vapor products, vapor devices, or water pipes. This threshold excludes convenience stores but includes dedicated retail outlets. The ordinance also excludes cigar, cigarette, or leaf tobacco sales.

PLANNING COMMISSION RECOMMENDATION

During its April 14, 2026 meeting, the Planning Commission failed to pass a recommendation of approval with Vice Chair Brown and Commissioner Moss in support and Chair O'Brien, Commissioner Edmundson, and Commissioner Wallach in opposition. Planning Commissioners in opposition voiced the preference to include CBD and Delta 8 THC products with this ordinance. An additional concern was that, from a land use law

Dunwoody, Georgia 30338
dunwoodyga.gov | 678.382.6700

perspective, vape shops should not be regulated differently from other uses considered dangerous, such as gun sales.

STAFF RECOMMENDATION

Staff recommends approval. Upon adoption or denial of this ordinance on May 11, 2026, the 90-day moratorium will expire. Should the City Council wish to defer the case during its second read, the staff recommends extending the moratorium to the same date.

- Added vape shops as a permitted use to districts that allow retail uses.
- Added two distance requirements: 600 feet from daycare facilities, places of worship, and schools to protect vulnerable populations.
- 1,500 feet from existing vape shops and gas stations to prevent clustering.

Distance Requirements

- Distance requirements similar to existing requirements for liquor stores.

	Liquor Stores – Existing Rules	Vape Shops – Proposed rules
Distance from Other Liquor Stores	1,500 Feet	-
Distance from Other Vape Shops and Gas Stations	-	1,500 Feet
